1 Introducing Provider Electronic Solutions

Thank you for using EDS *Provider Electronic Solutions*. This software supports the processing of Health Insurance Portability and Accountability Act (HIPAA) ready transactions.

The HIPAA ready forms available for billing Alabama Medicaid include the following: 837 Dental, 837 Institutional Inpatient/Outpatient, 837 Institutional Nursing Home, 837 Professional, 278 Prior Authorization, 270 Eligibility Request, NCPDP Pharmacy and Pharmacy Reversal, and RX Eligibility. Providers who bill Medicaid claims electronically receive the following benefits:

- Quicker claim processing turnaround

- Immediate claim correction

- Enhanced online adjustment functions

- Improved access to eligibility information

Provider Electronic Solutions is available at no charge to Alabama Medicaid providers. This user manual is designed to augment the online help that accompanies the *Provider Electronic Solutions* software. It also provides installation procedures and a contact number for the EDS Electronic Media Claims (EMC) Help Desk, whose commitment is to assist Alabama Medicaid providers with electronic eligibility verification, claim status inquiry, prior authorization request and claims submission.

Chapter 1, Introducing *Provider Electronic Solutions*, is comprised of three sections:

- *What You Need to Know to Use Provider Electronic Solutions*, provides definitions for important electronic claims submission, eligibility verification, prior authorization and claim status concepts.

- *How to Use this Manual*, describes the contents of the user manual.

- *Where to Get Help*, provides a contact list for the EMC Help Desk and other EDS personnel who can assist you with claims-related questions.

1.1 What You Need to Know to Use *Provider Electronic Solutions*

Below are some terms and concepts that will enhance your ability to use *Provider Electronic Solutions*:

Submitting through Interactive and Batch

Interactive

Interactive submission refers to "real time" responses to submitted transactions. These are single transactions that are submitted and responded to one at a time. Interactive submission is available for **eligibility verification**, **claim status**, and submission of **pharmacy claims, pharmacy reversals, and RX eligibility**. Interactive submission is not available for other claim types.

Interactive transactions are sent through a designated phone number directly to EDS' system for processing. You must also have a logon ID to submit interactively. The software should default to the correct phone number for interactive submission, as described in Section 2.5, 'Setting Up Personal Options'. The EMC group provides you with your logon ID as part of the packet you receive after ordering *Provider Electronic Solutions*.

With interactive eligibility verification, you receive an immediate answer about a recipient's eligibility. Interactive claim status provides the current status of the requested claim. With pharmacy claims submission, you receive immediate confirmation that your claim has paid or denied. You also receive alert information as part of Prospective Drug Utilization Review (Pro-DUR). Please refer to Chapter 27 of the *Alabama Medicaid Provider Manual*, Pharmacy, for a description of DUR alerts.

Batch

Batch submission refers to sending groups of eligibility verification, claim status, prior authorization requests or claims to EDS. A batch may contain one record or many records. These transactions are sent to the EDS system via our public-Internet website. EDS processes the batches of transactions and returns a response to the website. Providers may retrieve their responses through the *Provider Electronic Solutions* application.

All claim types are available for batch transmission. 270 Eligibility verification requests and claim status may also be sent by batch submission.

Using a Personal Computer

Provider Electronic Solutions operates in a Microsoft® Windows™ environment. The software is user-friendly and features point-and-click functionality and online help, just like other Windows applications.

To use *Provider Electronic Solutions*, you should have basic knowledge about personal computers and be able to navigate in Microsoft Windows. Specifically, you should know how to:

- Use a mouse, drop down menus, and navigation buttons.

- Toggle between open windows on your desktop.

- Determine some information about your PC's hard drive and be able to distinguish between a hard drive and a disk (or CD) drive. For instance, you should have a good idea about how much Random Access Memory (RAM) you have, and especially how much disk space (space available on your hard drive) you have. Chapter 2, 'Installing *Provider Electronic Solutions*', describes archiving, file retention, and other subjects that impact your PC's available space.

- Access the Windows Control Panel. Section 2.5, 'Setting up Personal Options', provides a brief description of how to use the Control Panel to research information about your modem.

- Determine a file and path name as necessary. The path name refers to a specific drive (for instance, your hard drive, CD-ROM drive, or 3 ½" diskette drive) and folders within those drives, if applicable.

Your Microsoft Windows user guide should give you information about these topics if you aren't already familiar with them.

Internet Access

Since *Provider Electronic Solutions* submits batch transactions through the public Internet, your PC must have a method of connecting to the Web. An Internet Service Provider (ISP) can provide this connection through a dial-up modem, DSL or a Cable link. Optionally, EDS provides a Remote Access Server (RAS) to gain access to this web site only. Your computer can dial into the RAS using a Modem. If you live outside the Montgomery calling area, you must be able to place a long distance call over the phone line. An Internet browser will also be required to maintain your security ID and password. The EDS software is written to work best using the Internet Explorer Browser. This software is available to download from the Alabama Medicaid homepage at **http://www.medicaid.alabama.gov** and from the Help Option on the secure HIPAA web site.

Using a Modem

Your modem may be part of your PC, or attached to your PC. Regardless, it must also be attached to a working phone line. If you plan to submit batch transactions and you live outside the Montgomery calling area, you must be able to place a long distance call over the phone line. Interactive transmissions are made via a toll-free number. Section 2.5, Setting Up Personal Options, describes how to set up *Provider Electronic Solutions* with your modem information.

Provider Electronic Solutions User Manual versus the Alabama Medicaid Provider Manual

This user manual describes: how to install and set up *Provider Electronic Solutions*, how to navigate in *Provider Electronic Solutions*, how to establish lists to suit your business needs, how to complete the required and optional fields on the electronic forms, how to submit transactions, and how to produce reports. **It does not provide program-specific information.** The user manual describes how to complete the electronic claim forms correctly to enable you to submit claims that pay correctly.

Providers should review Part I of the *Alabama Medicaid Provider Manual*, plus the appropriate program chapter in Part II of the manual, for program-specific and claims filing instructions. For instance, the *Provider Electronic Solutions User Manual* will not provide instructions on submitting claims with third party denials, or tell you which recipient aid categories allow for full Medicaid coverage, or inform you whether a particular procedure code requires prior authorization. Refer to the *Alabama Medicaid Provider Manual* for this information.

NOTE:

If you did not receive a copy of the *Alabama Medicaid Provider Manual,* contact EDS Provider Relations at 1 (800) 688-7989 or download a copy of the manual from the Alabama Medicaid homepage at **http://www.medicaid.alabama.gov**

1.2 How to Use This Manual

This manual is comprised of the following chapters:

	Chapter Title	*Contents*
1.	Introducing *Provider Electronic Solutions*	Describes what you need to know to use *Provider Electronic Solutions*, how to use the user manual, and who to contact if you have questions
2.	Installing *Provider Electronic Solutions*	Covers equipment requirements, getting a copy of PES, installation procedures, setting up personal options, installing software updates, and other maintenance options such as archiving and database recovery
3.	Getting Around	Describes general navigation concepts and provides an overview of the online help feature
4.	Customizing PES	Provides instructions on how to complete certain lists required for transmission, as well as how to use the lists options.
5.	Verifying Eligibility	Provides instructions for submitting interactive and batch eligibility verification requests.
6.	Submitting 837 Dental Claims	Provides instructions on entering claims in the electronic Dental Claim form and submitting the dental claims via a web server or diskette.
7.	Submitting NCPDP Pharmacy Claims	Provides instructions on entering Pharmacy claims in the electronic NCPDP Pharmacy form and submitting the NCPDP Pharmacy claims interactively or diskette.
8.	Submitting 837 Professional Claims	Provides instructions for entering claims in the electronic 837 Professional claim form and submitting the 837 Professional claims via a web server or diskette.
9.	Submitting 837 Institutional Inpatient Claims	Provides instructions for entering claims in the electronic 837 Institutional Inpatient claim form and submitting the 837 Institutional Inpatient claims via a web server or diskette.
10.	Submitting 837 Institutional Outpatient Claims	Provides instructions for entering claims in the electronic 837 Institutional Outpatient claim form and submitting the 837 Institutional Outpatient claims via a web server or diskette.
11.	Submitting 837 Institutional Nursing Home Claims	Provides instructions for entering claims in the electronic 837 Institutional Nursing Home claim form and submitting the 837 Institutional Nursing Home claims via a web server or diskette.
12.	Submitting Claim Reversals	Provides instructions for entering reversals or adjustments in the electronic claim forms and submitting the request via a web server or diskette.
13.	Viewing Response files	Provides instructions on how to receive an electronic response to the claims submitted via web server or diskette.
14.	Generating Reports	Provides instructions on how to generate a summary or detailed report based on the options from the reports screen.
15.	Submitting 278 Prior Authorization request	Provides instructions for entering a request in the electronic 278 Prior Authorization request form and submitting the 278 Prior Authorization request via a web server or diskette.
16.	Submitting 276 Claim Status request	Provides instructions for entering a request in the electronic 276 Claim Status request form and submitting the 276 Claim Status request via a web server or diskette.
17.	Connecting to the Web Server	Provides instructions for connecting to the web server to keep your password updated accordingly. These instructions include connecting through an ISP (Internet Service Provider) or through RAS (Remote Access Server).

Many of the manual chapters feature step-by-step instructions accompanied by illustrations. Throughout the manual, note boxes are used to draw the reader's attention to important concepts.

1.3   Where to get Help

Provider Electronic Solutions features extensive, field-level online help available by pressing <F1>. Certain windows feature a **Help** button which accesses field level help. Field level help means that you can position your cursor in a field you are unfamiliar with, press <F1> or the **Help** button, if applicable, and read the online help to determine the usage of that field. EDS provides a user manual on CD-ROM and online help to ensure access to as much information as possible about *Provider Electronic Solutions.*

If you still have questions, or if you encounter difficulty using *Provider Electronic Solutions* or dialing into the EDS system, contact the EMC Help Desk at 1 (800) 456-1242. The Help Desk staff is available from 7:00 a.m. to 8:00 p.m., Monday through Friday, excluding holidays. In addition, pharmacy providers may access the EMC Help Desk from 9:00 a.m. to 5:00 p.m. on Saturdays, including holidays.

2   Installing HIPAA Provider Electronic Solutions

This chapter covers equipment requirements, instructions on obtaining a copy of *Provider Electronic Solutions*, installation procedures, setting up personal options, installing software upgrades, and other maintenance options such as archiving and database recovery.

2.1   Equipment Requirements

Before installing *Provider Electronic Solutions*, you must ensure you have the proper equipment. *Provider Electronic Solutions* is designed to operate on a personal computer with the following equipment requirements:

Minimum	Recommended
• Internet Explorer Version 5.5 or Netscape Browser Version 6.1	• Internet Explorer Version 6.0 or Netscape Browser Version 7.1
• Pentium II	• Pentium III
• Windows 2000	• Windows XP
• 64 Megabytes RAM	• 128 Megabytes RAM
• 800 x 600 Resolution	• 1024 x 768 Resolution
• 28.8 Baud Rate modem (required only for dial-up transmission)	• 56K Baud Rate modem (only for dial-up transmission)
• CD/ROM drive	• Printer with 8pt MS Sans Serif font (Optional)
• 100 Megabytes free Hard Drive space	
• Dial-Up Networking (If user has no ISP, Internet Service Provider)	

NOTE:

Providers who wish to install *Provider Electronic Solutions* on a Local Area Network (LAN) or configuration other than a stand-alone personal computer should contact the EDS Electronic Media Claims (EMC) Help Desk at 1 (800) 456-1242 for instructions.

2.2   Getting a Copy of *Provider Electronic Solutions*

You can receive a copy of the software in several media. Use the table below to determine the best media for you.

Media	How to Get it
CD/ROM	Contact the EMC Help Desk at 1 (800) 456-1242. EDS will send you one CD/ROM with accompanying documentation.
Zip^{TM} file	Download from the Alabama Medicaid website at **http://www.medicaid.alabama.gov** Please note that the downloading process may take a long time due to the size of the application file.

When you receive CD/ROM, store it in a safe place. In the event the program and files are damaged or deleted while on your PC, you must re-install *Provider Electronic Solutions* from the CD/ROM.

NOTE:

Please note that upgrade versions of the software, as described in Section 2.6, Installing Software Upgrades, do not replace a full installation. You must re-install *Provider Electronic Solutions* if the files or programs are damaged or deleted. Contact the EMC Help Desk at 1 (800) 456-1242 for assistance.

2.3   Installation Procedures

You should install your *Provider Electronic Solutions* software only once, unless the software is damaged while on your PC.

Updated versions of the software contain enhancements to the application. These updated releases may be downloaded from the Alabama Medicaid website at http://www.medicaid.alabama.gov/billing/pes.aspx?tab=6 . See Section 2.6, Installing Software Updates, for more information.

The installation procedures vary slightly depending on the way you received the software (CD/ROM or Zip file, as described above). This section describes installation procedures from CD, and installation procedures from a Zip file (downloaded from the Web).

2.3.1   Installing from CD

NOTE:

Providers are strongly encouraged to exit all other Windows programs before running the setup program. This includes MS Word, e-mail systems, or other applications.

This section provides step-by-step instructions for installing *Provider Electronic Solutions* on a PC running at least Windows 2000.

Windows 2000/XP has some special installation instructions. EDS can fax or email a copy of the instructions upon request. Contact the EMC Helpdesk at 1-800-456-1242 for Windows 2000/XP installation instructions.

Installing from CD

When you install the software from a CD, the auto installation program begins the process for you. Insert the CD in your CD drive. The Set up box displays on your desktop after a few moments. The EDS *Provider Electronic Solutions* Welcome screen then displays.

Installing from CD-ROM

Step 1   The EDS *Provider Electronic Solutions* Setup program will initialize. Please wait a few moments while this occurs. The Setup Screen Welcome window displays.

Step 2   Click 'Next' after reviewing the text on the window.

Step 3   The setup window should now be displayed. Choose the type of installation to be executed.

Step 4   Choose the default setup type (Typical) unless you have contacted the EMC Help Desk for instructions on workstation setup.

<u>NOTE</u>:

Typical – Installs all the files, including the database. This installation is used to install the software to a stand-alone PC, or to initially install the software to a network server. Most installations will be typical installations.

Workstation – Used to add the software to additional PCs that are connected to a network server, where all users share a database. This installation type does not load the database files to the PC; however, it does allow for sharing the database files that were installed to the network.

Step 5   Click 'Next' to continue. The, Choose Destination Location window displays.

Step 6   Click 'Next' to choose the default destination folder (recommended) or click Browse to select another destination folder.
Then click 'Next' to advance the setup program. The following message displays:

Please note the database destination folder for future WORKSTATION setups.

Step 7   Click 'OK' to access the Setup Complete window. Click 'Finish' to complete setup.

The setup program creates an icon on your desktop for AL EDS *Provider Electronic Solutions.* To access the application, double-click on the icon. The AL EDS *Provider Electronic Solutions* window displays.

Double-click on the AL EDS *Provider Electronic Solutions* icon. For information on the Upgrade icon that also displays in the *Provider Electronic Solutions* window, see Section 2.6, Installing Software Updates.

2.3.2 Installing from a Zip File

NOTE:

Providers are strongly encouraged to exit all other Windows programs before running the setup program. This includes MS Word, e-mail systems, or other applications.

These instructions assume you are familiar with your Web browser and have used it to access the Internet to download information.

Access the Alabama Medicaid homepage at the following address:

http://www.medicaid.alabama.gov

Step 1   Click on the 'Billing' link then 'Provider Electronic Solutions Software' link. The Alabama Medicaid Provider Software page displays.

Step 2   Click on the Provider Electronic Solutions link. The *Provider Electronic Solutions* Software Specifications page displays.

Step 3   Review the information on the page. Use the scroll bar to move down the page, until you see the Provider Electronic Solutions Full Install.

Step 4   Your browser may ask you if you want to open the application or save it to disk. Choose "Save it to Disk" then click on 'OK' button to choose a directory on your hard drive. Please note this application is too large to fit on a 3.5" diskette. If you choose not to save it to your hard drive, you must have a Zip drive, CD/ROM Write-Once-Read-Many (WORM) recorder, or some other method for saving large files.

Step 5   Wait while the Zip file downloads. The download time varies depending on your Internet connection, your PC's processing speed, and other factors. When the download is complete, access the Zip file through Windows Explorer or File Manager if your download screen closes and continue to step 6, if not continue to step 5.

Step 6   After the download has completed, the download box will ask if you wish to OPEN, OPEN FOLDER, CLOSE. Choose 'OPEN'. A new box will appear.

Step 7   Double click on "setup.exe" (a blue computer icon may be displayed.) Wait until the Setup Screen Welcome window displays.

Step 8   Click NEXT after reviewing the text in the window.

Step 9   Choose the default setup type (Typical) unless you have contacted the EMC Helpdesk for instructions on workstation setup. Click 'NEXT' to continue. The Choose Destination Location window should now be displayed.

> **NOTE:**
>
> **Typical** – Installs all the files, including the database. This installation is used to install the software to a stand-alone PC, or to initially install the software to a network server. Most installations will be typical installations.
>
> **Workstation** – Used to add the software to additional PCs that are connected to a network server, where all users share a database. This installation type does not load the database files to the PC; however, it does allow for sharing the database files that were installed to the network.

Step 10   Click 'Next' to choose the default destination folder (recommended) or click Browse to select another destination folder. Then click 'Next' to advance the setup program. The following message displays:

Please note the database destination folder for future WORKSTATION setups.

Step 11   Click 'OK' to access the Setup Complete window. Click 'Finish' to complete setup.
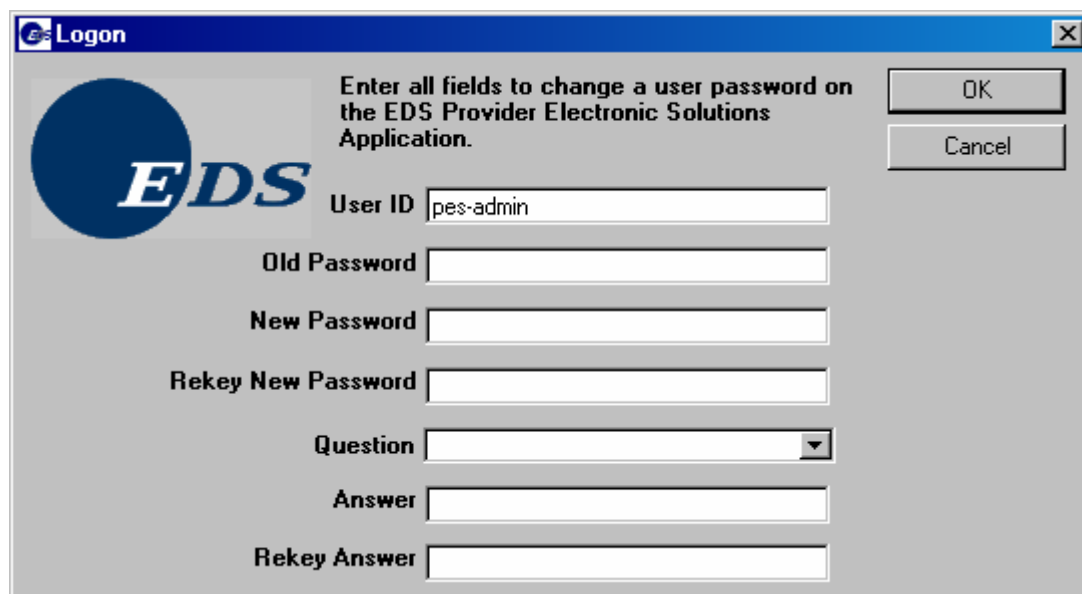

2.4   Accessing the Application

To access the application, perform the following steps:

Step 1   Double click the application folder from the desktop and then select AL EDS *Provider Electronic Solutions **or*** Select the **Start** button on the bottom left-hand corner of your screen, then go to Programs and select AL EDS *Provider Electronic Solutions.*
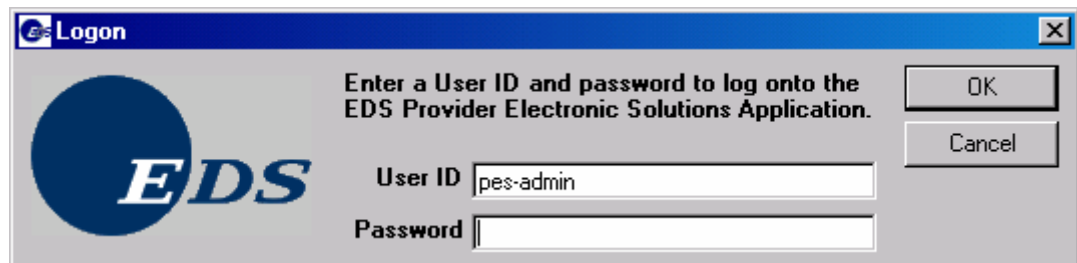

Step 2   Once the Logon Screen appears enter the default user password which is: **eds-pes** (The default user ID should remain as: pes-admin.) Click OK.

Step 3   The first time you log on, a Password Expired Box will appear, click 'OK'.

Step 4   The Logon Screen will prompt you to change your password. Fill in the information as stated below:

a. Type the old password, **eds-pes** in the Old Password field.

b. Type your new password in the New Password field. Your new password must be a minimum of five and a maximum of 10 alphanumeric characters. PLEASE STORE YOUR NEW PASSWORD IN A SAFE PLACE IN CASE IT IS FORGOTTEN.

c. Retype your new password in the Rekey New Password field.

d. Choose a question as your security question in the event you lose or misplace your new password.

e. Enter and re-enter the answer to your security question in the designated fields. Click 'OK' to continue.

Step 5   The Logon Status Box will appear, indicating that your password was successfully updated. Click 'OK'.

2.5   Setting Up Personal Options

NOTE:

The *Provider Electronic Solutions* software requires that you have a submitter ID in order to submit electronic claims to Alabama Medicaid. If you have used the software previously, this information can be found by opening the software and going to Tools >> Options >> Batch Tab. If you have never used the EDS software and need a submitter ID, please call 1 (800) 456-1242. **You will not be able to use *Provider Electronic Solutions* to submit batch or interactive transactions without this information**.

To use *Provider Electronic Solutions*, you must set up your personal options, including the following:

- Modem type and location (unless you use a separate connection device)

- If not connected through an ISP (Internet Service Provider) you must make modifications to install the RAS dial-up connection

- Logon IDs and passwords, as provided to you by the EMC Help Desk

When you access the *Provider Electronic Solutions* for the first time, the following message displays:
Click 'OK' to access the Options window. You can also access this window by selecting Tools>>Options from the menu bar at the top of the *Provider Electronic Solutions* application window.

The Options window contains seven tabs and four main buttons. These are described below:

Tabs

Tab	Usage
Batch	Use this tab to set up a trading partner ID, web logon ID, password to log onto the Medicaid website, and the requester's contact information.
Web	Use this tab to configure how to connect to the Medicaid website for claim submission.
Modem	Use this tab to set up modem information, such as modem type and communication port.
Interactive	Use this tab to set up a submitter ID for interactive submission.
Carrier	Use this tab to set up phone numbers and passwords for both interactive and batch submission.
Payer/Processor	Use this tab to access your system's payer/processor information.
Retention	Use this tab to establish retention settings for archive days, batch information, verification information, logs, and password expiration.

Buttons

Button	Usage
Help	Use this button to access the online help for the field currently being accessed.
Print	Use this button to print options selected for all of the tabs.
OK	Use this button to save and close the information added or modified.
Close	Use this button to close the Options window.

2.5.1 Batch Tab

Users access the Batch tab to enter a trading partner ID, web logon ID, password and the requesters contact information. A sample Options window displaying the Batch tab is pictured below:

Field	Guidelines
Trading Partner ID	If you have used the software previously, continue using the same user ID. If you need a new user ID contact the EMC Helpdesk at 800-456-1242.
Entity Type Qualifier	Choose the best value to indicate if this request comes from a person or non-person. A non-person would refer to a group or facility. A person would indicate an individual billing provider.
Web Logon ID	If you have used the software previously, continue using the same user ID. If you need a new user ID contact the EMC Helpdesk at 800-456-1242.
Web Password	The default password will be the same as your Web Logon ID. Please refer to chapter 17 on updating your password. You must complete that process before continuing.
Last/Org Name	If billing as an individual provider, enter the last name of the physician. If billing as an organization or group, enter the facility's name.
First Name	If billing as an individual provider, enter the first name of the physician.
Requester – Contact Name	Enter the name of the software's user for contact purposes.
Requester – Fax	Enter the fax number of the software's user. This field is **optional**.
Requester – E-mail	Enter the e-mail address of the software's user. This field is **optional**.
Requester – Telephone	Enter the telephone number of the software's user.

2.5.2 Web Tab

Users access the Web tab to modify their method of connection to the Medicaid
Submission site. A sample Options window displaying the Web tab is pictured below:

Field	Guidelines
Use Microsoft IE Pre-config Settings	If checked, the pre-config settings within your Internet Explorer will be accessed to connect to the batch submission website.
Connection Type	If the Internet Explorer Pre-config Settings option is **not** checked, you must choose either LAN or Modem to identify how the PC connects to the Internet.
Use Proxy Server	If the Internet Explorer Pre-config Settings option is **not** checked and your Internet access is filtered through a Proxy Server check this setting.
Dialup Network	If you choose the Modem Connection Type, you must select one of the Dialup Networks from the drop-down box. If you do not have an option listed, follow the instructions for the Install RAS button.
Proxy Information – Address	To obtain the address of your proxy server right-click on the Internet Explorer icon and left-click on properties. Click on the Connections tab and enter the LAN Settings to obtain the proxy address.
HTTP Port	To obtain the HTTP Port of your proxy server right-click on the Internet Explorer icon and left-click on properties. Click on the Connections tab and enter the LAN Settings. Click on Advanced and review the Port information for HTTP:
HTTPS Port	To obtain the HTTPS Port, follow the instructions above under HTTP Port and enter the Secure port number in this field.
Proxy Bypass	The Proxy Bypass information is found on the same window as the HTTP and HTTPS ports in the Exceptions text area.
Environment Ind	Choose the best value to indicate if the submission is Production or Test. Remember, if you have your indicator as Test your claims will not be paid.
RAS Phone #	If you use a dialup modem, enter (if long distance to Montgomery) 1,3342728850, if not long distance to Montgomery's calling area you do not have to enter 1,334. If your phone service requires additional dialing features you may adjust this number to add those features. Such as dialing a '9' to get an outside line would be entered as: 9,13342728850.
Install RAS	If you choose to use a dial-up modem to connect to Medicaid, you must choose a Dialup Network option provided. If you have no option provided, press the Install RAS button and the option AL RAS will be available to you.

NOTE: Due to a delay in installing RAS, the user may have to click on the 'LAN' option and then back to the 'Modem' option for the RAS Dial-up Network to display. |

2.5.3 Modem Tab

Users access the Modem tab to establish connection between the modem and the *Provider Electronic Solutions* application. A sample Options window displaying the Modem tab is pictured below:

Click on the 'Detect' button to determine your modem type. The information displays in the Modem Type field. Perform the following to determine the communications port associated with your modem:

Step 1   Click on the 'Start' button, then choose Settings>>Control Panel.

Step 2   Double-click on the 'Modem' or 'Phone and Modem Options' to review modem information, including the communications port.

Enter the communications port information in the Com Port field and continue to the Interactive tab.

2.5.4 Interactive Tab

Users access the Interactive tab to enter a submitter ID for interactive submission. A sample Options window displaying the Interactive tab is pictured below:

The cover sheet that accompanies this software application provides you with the Submitter ID. Enter the ID in the Submitter ID field.

The Interactive Init String field should already be populated with the correct information if you clicked the Detect button on the Modem tab.

<u>NOTE</u>:

If the modem does not connect when dialing, try leaving the Interactive Init String blank.

2.5.5 Carrier Tab

Users access the Carrier tab to set up phone numbers and passwords for an interactive transmission. A sample Options window displaying the Carrier tab is pictured below:

<u>NOTE</u>:

The majority of the fields will auto-default to their normal settings. You should only adjust the DTR and Phone Number for personal settings. A dial-up modem is required for this transmission type.

Interactive Settings

You will not have to adjust the interactive settings *unless* your phone system requires special dial-out numbers (for instance, if you must dial '9' to get an outside line). If this is the case, position your cursor at the beginning of the phone number field and enter the appropriate data, making sure you do not delete the remainder of the phone number. You may add a coma after the digit entered to add a pause upon dialing out.

You may also need to adjust the DTR settings to fit your personal settings within your modem. The normal setting for the DTR is 9600.

2.5.6 Payer/Processor Tab

This tab contains your system's payer/processor information. The fields on this screen will populate automatically and should not be altered unless directed by EDS. A sample Options window displaying the Payer/Processor tab is pictured below:

2.5.7 Retention Tab

Users access the Retention tab to establish retention settings for archive days, batch information, verification information, logs, and password expiration. A sample Options window displaying the Retention tab is pictured below:

Retention settings indicate the number of days worth of data the software should save. Users may set retention settings as required, or may retain the default settings. Click OK to save the information.

NOTE:

Increasing the retention settings results in more data saved to your hard drive. *Provider Electronic Solutions* enables you to archive most of types of data generated by the system. There may be a better alternative to increasing your retention settings. For more information, refer to Section 2.7, Other Maintenance Options.

2.6 **Installing Software Updates**

Occasionally, EDS will release updates to *Provider Electronic Solutions*. Upgrading your software is quick and easy with the Get Upgrades option, available from the Tools menu option.

Receiving Notification of Upgrades

EDS notifies providers of software updates in two ways:

- Update notices in the *Provider Insider,* the Alabama Medicaid bulletin

- "Mini-messages" on the Explanation of Payment (EOP)

You may also elect to use the Get Upgrades option if you unexpectedly experience difficulty in submitting claims, or if you have not used the software for an extended period of time. In this manner, you can be certain you are using the most current version of *Provider Electronic Solutions* even if you have not received an upgrade notification.

Upgrading *Provider Electronic Solutions*

Perform the following tasks to upgrade your *Provider Electronic Solutions* software:

Step 1   Select Tools>>Get Upgrades from the menu bar. Depending on the web connection options you have selected, *Provider Electronic Solutions* connects to the network and returns one of two actions:

- If an upgrade is available, the system automatically downloads the upgrade to your PC. Proceed to Step 2.

- If no upgrade is available, the system displays the message *No upgrades available to apply*. No further action is necessary.

Step 2   Close *Provider Electronic Solutions*. Access the Provider Electronic Solutions window on your desktop and click on the Upgrade icon to upgrade the application.

NOTE:

Providers are strongly encouraged to exit all other Windows programs before running the upgrade setup program. This includes MS Word, e-mail systems, or other applications.

Be sure to close *Provider Electronic Solutions.* Save any data currently being accessed

on *Provider Electronic Solutions*, such as claims, lists, or eligibility verification responses before performing an upgrade on your software.

2.7 Other Maintenance Options

The Tools menu options enable users to archive data, recover the database, download upgrades, and set up options. Procedures for downloading upgrades are described in Section 2.6, Installing Software Upgrades. Settings up options are covered in Section 2.5, Setting up Personal Options.

This section describes other maintenance options such as archiving and database recovery.

2.7.1 Archiving

Archiving data is the process used to keep the size of your data small enough for it to be useful, while maintaining historical records of the forms you have entered.

Archiving is designed to make management of forms easier and to keep the space on your hard drive used by the *Provider Electronic Solutions* application to a minimum.

One of the options available under Tools>>Archive>>Create is the setting that controls how many days of forms you wish to keep online on your PC. The standard setting is 30 days; however, you may select whatever setting best suits your needs. This means that when you select Tools>>Archive>>Create Archive from the menu bar, you will keep a copy of any form which was submitted more than 30 days ago. The form is copied to a compressed file and then deleted from your database. Forms submitted in the past 30 days are still accessible through the *Provider Electronic Solutions* database.

You can store the compressed file on a diskette or leave it on your hard drive. Forms that are ready to be submitted (that have a status of 'R') are not archived, but remain on your online database until you have submitted or deleted them. Forms that are incomplete (that have a status of 'I') and are older than the archive data are removed during the archive process and are not saved on the archived file.

This section describes how to create an archive and how to restore archived files.

Create Archive

NOTE:

If running *Provider Electronic Solutions* on a network, other users must exit the application (must not be viewing, adding, or modifying any forms or lists) before you create an archive. The user creating the archive should have the only open copy of the software while the process runs.

To create an archive, select Tools>>Archive>>Create from the menu bar. After verifying that all forms and lists are closed, click OK to proceed. The Archive Forms window displays:
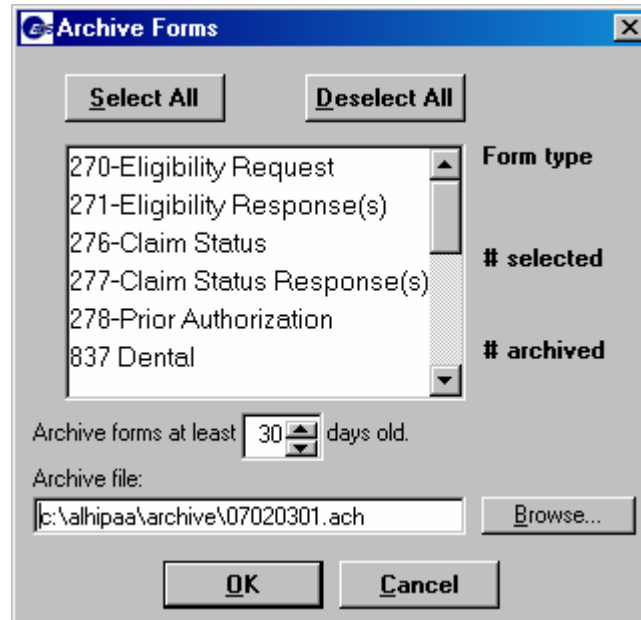

Using this window, you can:

- Select all the form types to archive by clicking on the 'Select All' button (click on 'Deselect All' to deselect). You may also select specific form types to archive by clicking on the form type.

- Change the default directory and the name of the file to archive by typing the path name in the Archive file field, or by clicking on the Browse button.

- Change the number of days used to archive the forms. (This change applies to the current session only. Select Tools>>Options>>Retention Tab to change the number of retention days for all future sessions.)

Select 'OK' to archive the selected forms. Select 'Cancel' to exit the archive function.

Once you select 'OK', the system archives the forms that match the selection criteria. *Provider Electronic Solutions* displays a confirmation message upon completion. Click 'OK' to exit the Create Archive process.

NOTE:

You can use the mouse (click once with the left mouse button) to select one form at a time, or multiple form types for archiving.

Restore Archive
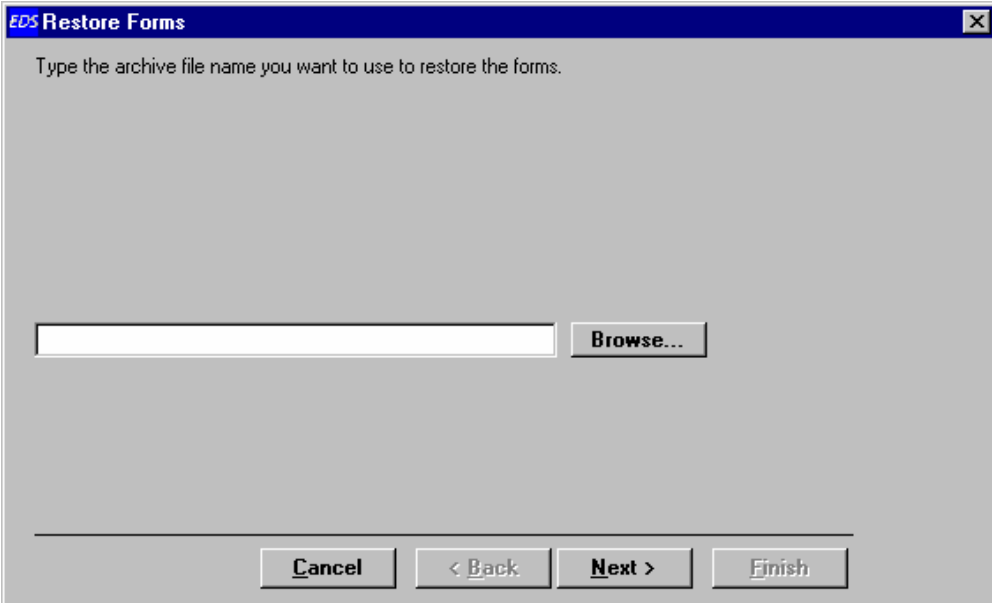

The Restore Archive process enables users to recall forms from an archive file and put them back into the online database. For instance, if you elect to archive to diskette claims more than thirty days old, Restore Archive enables you to return them to the list that displays at the bottom of the *Provider Electronic Solutions* claim form.

Restored claims display with a status of 'A'. You cannot change information on these claim forms; however, you can use the restored forms to:

- Review them to confirm information

- Print them in a report

- Copy them to create a new claim form

Perform the following to restore archived forms:

Step 1   Select Tools>>Archive>>Restore from the menu line. The Restore Forms window displays:

Step 2 Type in the path and file name of the file to restore and click the 'Next' button, or click on the 'Browse' button to search for the path and file name. The following window displays:
Step 3 Select the file and path name and click 'Open' button. Click 'Next' to display the Restore Forms window, pictured below:
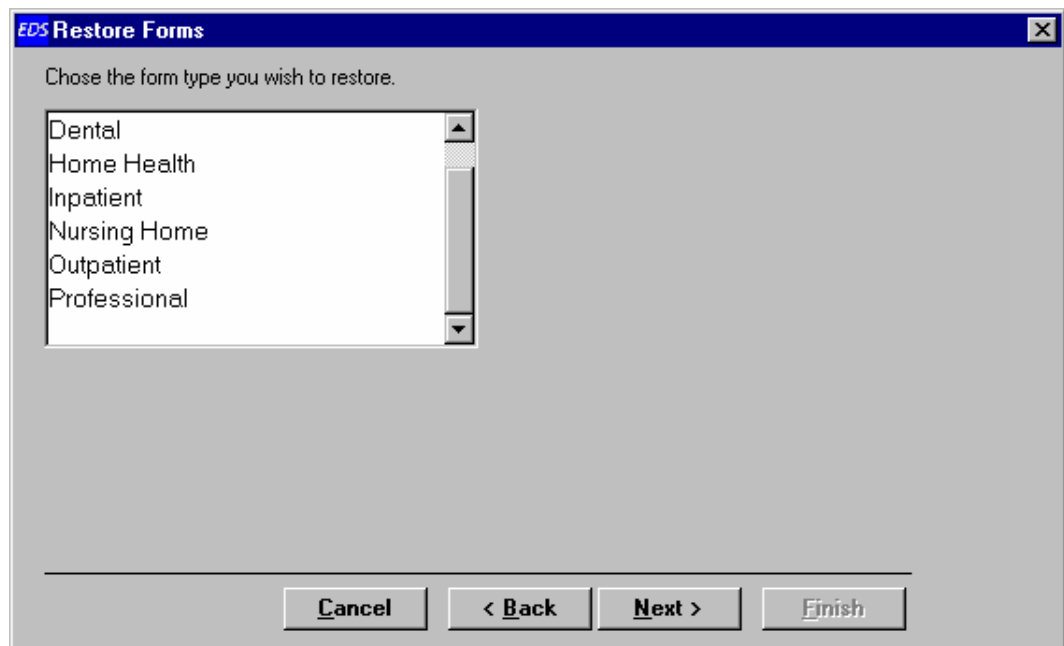

Step 4   Determine which form type(s) you want to restore. To select multiple form types, follow the procedures indicated in the note box under the Create Archive section. Click the 'Next' button to proceed.

Provider Electronic Solutions displays a message if it does not locate any forms matching the selection criteria for the file and path name you selected. When this occurs, you may select 'OK' to select another form type or 'Back' to go back and change the archive path and file name.

When *Provider Electronic Solutions* finds forms that match the selection criteria, the following displays:

Step 5   Select the restore option you want (all at once or only selected forms). To select multiple forms, follow the procedures indicated in the note box under the Create Archive section. The window displays forms by Insured ID (Recipient ID), Last Name, First Name, Billed Amt, and Last Submit Dt. Click the Finish button to proceed.

Provider Electronic Solutions displays a message upon successful restoration of the archived forms. Click 'OK' to exit the Restore Archive process.

2.7.2 Database Recovery

There may be times when there is a problem with your database. The Database Recovery option is designed to help you work with the Help Desk personnel to fix problems with your database.

Compact Database

Compact is used to make the database files smaller and better organized. When you delete a form, empty space is created in the database where that form used to be. Compact will release all the empty space so that it is available for you to use again.

Repair Database

Repair will attempt to validate all system tables and all indexes. Generally, this feature is helpful when you are having trouble accessing your data. The Help Desk staff will let you know when this is necessary. You may use this feature any time you feel that it would be helpful. Compact is recommended after the Repair.

Unlock Database

Sometimes errors will cause database locks. The database may lock when you are submitting forms, archiving forms, restoring forms, and sometimes when you are adding or editing forms. Use the Unlock feature to unlock the database tables.

2.7.3 Changing Password

There may be times when you feel a need to change your password. The Change Password option is designed to allow you to do so. The password is defaulted to prompt its user to change the password every ninety days. This option may be adjusted, review Section 2.5.7 *Retention Tab* to do so.

Step 1   Go to Tools >> Change Password

Step 2   Enter your old password in the **Old Password** field

Step 3   Enter your new password in the **New Password** field.

Step 4   Re-enter your new password in the **Rekey New Password** field.

Step 5   Choose a security question, in the event you lose or misplace your password.

Step 6   Enter and re-enter the answer to your security question in the designated fields.

Step 7   Click OK to save your new Provider Electronic Solutions password.

2.7.4 Security Maintenance

There is an option to add users to access the Provider Electronic Solutions software without having to use the same logon ID. This also establishes certain users to have administrator versus non-administrator rights. This option may be accessed by going to Security >> Security Maintenance. Follow the steps below to add additional users to the *Provider Electronic Solutions* application.

Adding New Users

Step 1   Go to Security >> Security Maintenance to access the screen. You must be logged on as an administrator to complete this process. (The default administrator ID is pes-admin.)

Step 2   Enter a new User ID in the User ID field.

Step 3   Enter the new user's password in the Password field.

Step 4 Choose the new user's authorization level.

- User (Non-administrator) – This option allows the user to access the *Provider Electronic Solutions* software, create and save claims, submit electronic transactions and make the needed adjustments to the personal options menu. (This option only restricts users from adding or removing additional users.)

- Administrator – This option allows the user to access the *Provider Electronic Solutions* software, create and save claims, submit electronic transactions, adjust their personal options, and create new users.

Step 5 Click on 'Save' once you have completed the above steps. And click on 'Close' to close the Security Maintenance screen.

Step 6 Once the new user logs on, they will be prompted to create a new password. Refer to *Section 2.4 Accessing the Application.*

NOTE:

Store your new user ID and password in a safe location for future use. If your password is lost or misplaced, have your administrator logon as pes-admin to assign your ID a new password.

Removing Users

Step 1 Go to Security >> Security Maintenance to access the screen. (You must be logged on as an administrator to complete this process. The default administrator ID is pes-admin.)

Step 2 Choose the user ID you wish to remove by clicking on it.

Step 3 Once highlighted, the information will auto-write into the fields.

Step 4 Click on 'Delete' to remove the user.

Step 5 Click on 'Close' once you have completed this process for each user you wanted to remove.

3   Getting Around

This chapter describes general navigation concepts and provides an overview of the online help feature.

3.1   Navigating in Provider Electronic Solutions

Before you begin using *Provider Electronic Solutions*, review the following section and learn how to navigate through the application with your keyboard and mouse.

Navigating through *Provider Electronic Solutions* is similar to other Windows-compatible applications. The navigation options available are menus, toolbars, and command buttons. Your mouse and keyboard enable you to access these navigation options. Use your mouse to point-and-click as a method for navigating through *Provider Electronic Solutions.*

Below are samples of the menu and icon toolbars that display on the *Provider Electronic Solutions* main window:

This section describes the menu and icon options available with *Provider Electronic Solutions.*

3.1.1   Menus

Provider Electronic Solutions uses menus to navigate throughout the application. The menu options change depending on what window you access. When you open *Provider Electronic Solutions* the main menu displays. You can access items on a menu using the mouse and clicking on their icon. The example below provides two methods for accessing the Eligibility form from the Forms menu option:

- Position your cursor over the Forms menu option and click the left mouse button to display the drop down menu. Scroll down to the Eligibility selection and click once with your left mouse button to display the Eligibility form

- Click on the 'Eligibility' icon

Refer to Section 3.1.2, Icons, for a listing of main menu icons.

The following options are accessible from the main menu:

This menu option…	*Allows you to…*
File	Exit from the application.
Forms	Select the online form that you wish to work with.
Communication	Submit batches of forms and process batch responses. Resubmit batches of forms. View Communication Log files.
Lists	Add and edit reference lists, which allow you to collect information to be autoplugged in online forms.
Reports	Print summary or detail reports with information from forms or reference

This menu option…	Allows you to…
	lists.
Tools	Create and work with archives, perform database maintenance, retrieve upgrades, and change your options. The Options selection allows you to set up communications options and determine retention settings.
Security	Add, delete and restrict users other than the administrator.
Window	Standard options available for most Windows compatible applications.
Help	Obtain help about *Provider Electronic Solutions* functions, screens, menus, and fields. Also view information about this application such as version and copyright.
3.1.2 Icons

The Icons toolbar displays below the menu bar on the main menu. The twelve icons displayed are:

- 270 Eligibility
- 276 Claim Status
- 278 Prior Authorization
- 837 Dental
- 837 Institutional Inpatient
- 837 Institutional Nursing Home
- 837 Institutional Outpatient

- 837 Professional
- NCPDP Pharmacy Eligibility
- NCPDP Pharmacy
- NCPDP Pharmacy Reversal
- Household Inquiry Request
- Exit

Users can position the cursor over an icon to display a brief description.

When a form is opened, the toolbar display will change. After opening a specified form from the icon list above, the sixteen icons now displayed are:

- (Add) saves the existing form and calls up a new blank form.
- (Copy) makes a copy of the existing form.
- (Delete) deletes the existing form.
- (Undo) reverses all of the changes done to the existing form since the form was last saved.
- (Save) saves the existing form.
- (Send) transmits the existing form for processing.
- (Print) can only be accessed from one of the various form screens. Selecting the print button will automatically create a report and allow you to print the report that was automatically created.
- (Cut) deletes the highlighted data and places a copy of the data on the clipboard so that it can be pasted into another field or software program.
- (Copy) copies the highlighted data to the clipboard so that it can be pasted into another field or software program.
- (Paste) inserts data from the clipboard to the selected data fields or another software program.

- (Filter) allows you to define which forms are displayed at the bottom of the form screen by status, date submitted, name, amount billed, etc.

- (Find) allows you to search for a claim by recipient ID, last name, first name, and billed amount.

- (Sort) allows you to sort the claims that are displayed at the bottom of the form screen by recipient ID, last name, first name, billed amount, status and submit date.

- (Errors) allows you to view errors that have been detected on the current form.

- (Calculator) calls up the calculator.

- (Exit) allows you to exit the application.

3.1.3 Command Keys

Like most Windows applications, *Provider Electronic Solutions* provides the user with command keys. This enables the user to perform actions using either the mouse (point-and-click) or the keyboard. This section describes them.

Command Keys

The table below describes some standard navigation keys available with *Provider Electronic Solutions:*

To do this…	Press this key…
Go to the next field	<Tab> or <Enter>
Go to the previous field	<Shift>+<Tab>
Move backward within a field	Left Arrow
Move forward within a field	Right Arrow
Scroll up through a list	Up Arrow
Scroll down through a list	Down Arrow
Open online help for a field when the cursor is on a data entry field	<F1>

The list above includes function keys (usually located at the top of the keyboard and numbered 'F1' through 'F12'), command keys (such as <Alt>, <Shift>, <Tab>, <Ctrl>, and <Enter>), and arrow keys. Depending on your keyboard, the arrow keys may be located on the numeric keypad, or in a separate section from the numeric keypad.

To use arrow keys on the numeric keypad, you will probably press the 'Num Lock' key. Press the 'Num Lock' key again to disable the arrow keys on the numeric keypad, making them display numbers instead.

3.2 Online Help

Accompanying the *Provider Electronic Solutions* software is context-sensitive, field-level online help. Context-sensitive and field-level refer to how the help is programmed. You can access help for any field in *Provider Electronic Solutions* simply by positioning your cursor in the field and pressing the <F1> function key usually located at the top of your keyboard.
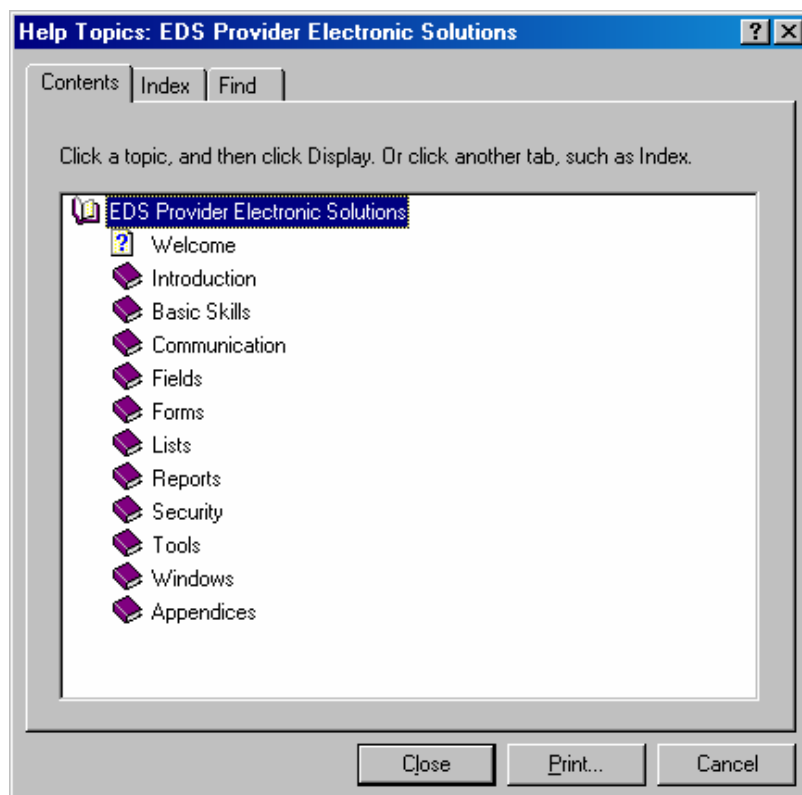

You can also access the online help document and search on specific information by selecting the Help menu option. To access the online help window, select Help>>Contents and Index>>Help Topics. The following pop-up window displays:

Enter keywords in the Help Topics window and press <Enter> to view information, or double click on topic name to view the information.

You can search by contents, by index (alphabetized), or by using the Find feature. Once you locate a specific topic, you can print the topic, or read it online, and then close the pop-up window.

To return to the list of topics once you've viewed information, click the Help Topics button.

NOTE:

The online help is not a substitute for the *Alabama Medicaid Provider Manual*. It merely provides general help regarding required fields and *Provider Electronic Solutions* functionality. It does not provide program-specific information. If you did not receive a copy of the *Alabama Medicaid Provider Manual,* contact EDS Provider Relations at 1 (800) 688-7989 or download a copy of the manual from the Alabama Medicaid homepage at http://www.medicaid.alabama.gov

4 Customizing Provider Electronic Solutions

Provider Electronic Solutions contains reference lists of information that you commonly use when you enter and edit forms. For example, you can enter lists of common diagnosis codes, provider numbers, or patient ID's. After saving the list information, the lists are available as a drop down list where you can select data to speed the data entry process and help ensure the accuracy of the form. Building a list can also increase your ability to submit correct claims quickly and efficiently.

To meet the standards set forth by the Health Insurance Portability Accountability Act (HIPAA), Provider and Recipient information is required to be entered into a list. You will no longer be able to enter the provider ID or recipient ID on the form manually.

This chapter describes two ways to build lists and how to use lists when filing claims, eligibility transactions, or claim status.

4.1 Building Lists

There are two ways to build lists with *Provider Electronic Solutions*:

• Accessing list windows through the List menu.

• Double clicking on certain fields while you are completing a claim form or entering an eligibility verification transaction. Double clicking on these fields accesses the corresponding list window.

With *Provider Electronic Solutions*, you have the option of building lists as a separate task, or building (adding) to them as you submit claims.

NOTE:

To access a list window from a claim form, double-click in the field that corresponds to the list window. For example, while keying a claim, double click the Provider ID field to access the list window for providers. Enter information into the corresponding fields. Click the 'Save' button to add it to the list.

You can build the following lists using *Provider Electronic Solutions*:

Attending/Operating Provider	
Prescriber	
Provider	Occurrence
Recipient	Other Insurance Reason
UPIN	Patient Status
	Place Of Service
Admission Type	Policy Holder
Carrier	Procedure/HCPCS
Condition Code	Revenue
Diagnosis	Taxonomy
Modifier	Type Of Bill
NDC	

Each list type corresponds to a list window. Users may add, edit, or delete list records using list windows.

Below is a description of the buttons that display on each list window. The 'copy' button is not a feature on all list windows:

Button	Usage
Add	Pressing this button enables you to refresh the list screen so you may add a new record. Please note that if you key over data that already displays on the list window and press Save, you will overwrite the previous record. Be sure to press Add before entering a new record. If you forget to do this and inadvertently key over a saved record, press Undo All (see below) to undo the changes.
Delete	Pressing this button enables you to delete the record currently displayed.
Undo All	Pressing this button enables you to undo changes you have made to the record currently being displayed.
Save	Pressing this button enables you to save the record you just added or modified. The saved record displays on the list at the bottom of the window.
Find	Pressing this button enables you to search for a saved claim by status, last submit date, billed amount, first name, last name, or recipient ID.
Print	Pressing this button enables you to print the list.
Select	Pressing this button enables you to select the current list record to add to the current transaction.
Help	Pressing this button enables a help screen to appear to answer any questions you may have.
Close	Pressing this button enables you to close the window.
Copy	Pressing this button enables you to build a new list from the current list record.

To Add a New Record to a List

Click on the 'List' menu from the toolbar. To add a record, select the list by clicking on it.

Key information into all required fields.

> You can enter information in any order, or may enter it in the order presented on the record, pressing the Tab key to move to the next field.

Press the 'Save' button to save the record.

> The system returns error messages if the record contains errors. Scroll through the error messages and double-click on each error to access the field on the record that contains the error.

Correct the mistake and press 'Save'.

Press the 'Add' button to add another record.

To Modify a Record from the List

Click on the 'List' menu from the toolbar. To modify, select the list by clicking on it.

Scroll through the list of records that display at the bottom of the list window. Highlight the record you wish to modify, and perform one of the following:

- Key over incorrect data on the record. Press 'Undo All' if you overwrite a record.

- Press 'Delete' to delete an unwanted record.

To Find a Record in the List

Select the 'Find' button to display the Find pop-up window. Options are:

- Find Where (select a field from the drop down list, if applicable)

- Find What (enter your search criteria here)

- Search (select up or down from the drop down list)

Once you have entered the search criteria, click the 'Find Next' button with your mouse to search for the next record that matches the search criteria. Continue clicking 'Find Next' until you find the record you are searching for, or until the system returns a message indicating there are no records that match the search criteria.

Press 'Cancel' when you have finished searching.

4.2 Completing the Provider List

The Provider list allows you to collect detailed information about providers that can then be automatically entered into forms. This includes such information as: Provider ID/License #, last name, first name, address, and SSN/Tax ID.

To Add a New Provider

Click on the 'List' menu from the toolbar. Select 'Provider' from the drop down menu to add a record.

Key information into all required fields.

Field descriptions are provided below in the order they display on the form. You can enter information in any order, or may enter it in the order presented in the form, pressing the Tab key to move to the next field.

A sample Provider list window is pictured below:

Field	*Guidelines*

No hyphens, slashes, dashes or spaces should be used when completing this field. (If the Social Security Number or Tax ID is not known and cannot be obtained, please enter all 9's in this field and choose "SSN Number" from the SSN/Tax ID Qualifier.)
SSN/Tax ID Qualifier	Choose the best value to indicate if: 24 – SSN/Tax ID entered is the employer's identification number (such as Tax ID) or 34 - SSN/Tax ID entered is a SSN number.

Step 3   Press the 'Save' button to save the record.

The system returns error messages if the record contains errors. Scroll through the error messages and double-click on each error to access the field on the record that contains the error.

Step 4   Correct the mistake and press 'Save'.

Step 5   Press the 'Add' button to add another record.

4.6   Using Lists

The lists you maintain can speed up your claims filing process. When you are submitting a claim form and you access a field that corresponds to a list (for instance, the Recipient ID field), the system displays a drop down menu. This drop down list contains the records you have previously added to the list. Scroll through the records and select one. Tab through the field and the system populates the field (and any corresponding fields, such as Recipient Name) with the information from the list record.

Alternatively, you can double-click in any field that corresponds to a list to access the list window. From this window, you may search for a record, modify an existing record, or add a new record.

NOTE:
The system does not verify the accuracy of the data you maintain on lists, other than requiring data to be the correct field length, if applicable. If you key errors in your list file (for instance, if you transpose digits for a recipient ID), you may not know you have made an error until you submit the claim and the claim is rejected. If you use lists, please print and review the lists occasionally to ensure their accuracy.

5   Verifying Eligibility

This chapter provides instructions for submitting interactive and batch eligibility verification requests. Please note this user manual does not discuss program requirements. Refer to the Alabama Medicaid Provider Manual for program-specific information.

Users access the Eligibility Verification window using one of the following methods for a 270 request:

- Selecting the Eligibility icon from the toolbar

- Selecting Forms>>270 Eligibility Request

Users access the Eligibility Verification window using one of the following methods for a NCPDP Pharmacy request: (For Pharmacy's only)

- Selecting the NCPDP Pharmacy Eligibility icon from the toolbar

- Selecting Forms>> NCPDP Pharmacy Eligibility

The electronic form for the 270 Request displays with two tabs: Header 1 and Header 2

The electronic form for NCPDP Pharmacy Request displays with one Header tab.

5.1   Submitting an Interactive Request

The Eligibility window contains three main parts:

- Updateable fields used to enter eligibility data.

- Buttons to the right of the window used to save, send, delete, or modify information entered in the updateable fields.

- List fields at the bottom of the form enable users to view basic information about several eligibility verification transactions. Users may highlight a row to delete, copy, print, or modify a claim record. The list fields include Recipient ID, Last Name, First Name, Date of Service (DOS), and Status.

Below is a description of the buttons that display on the Eligibility window:

Button	*Usage*
Add	Pressing this button enables you to refresh the window so you may add a new record. Please note that if you key over data that already displays on the record and press Save, you will overwrite the previous record. Be sure to press Add before entering a new record, or press Copy (see below) to build a new record from an existing record. If you forget to do this and inadvertently key over a saved record, press Undo All (see below) to undo the changes.
Copy	Pressing this button enables you to build a new record from an existing record.
Delete	Pressing this button enables you to delete the record currently displayed.
Undo All	Pressing this button enables you to undo changes you have made to the record currently being displayed.
Save	Pressing this button enables you to save the record you just added or modified. The saved record displays on the list at the bottom of the window.

Button	Usage
Send	Pressing this button enables you to send via interactive submission the record currently being displayed. You must save the record before sending it.
Find	Pressing this button enables you to search for a saved record by status, DOS, first name, last name, or recipient ID.
Print	Pressing this button enables you to print the record currently displayed.
Close	Pressing this button enables you to close the window.

To Add a New Record

Access the correct Eligibility form. Key information into all required fields, refer to Section *5.2 Completing the 270 Eligibilty Form* **or** Section *5.3 Completing the NCPDP Pharmacy Eligibility Form.*

Step 1   Press the 'Save' button to save the record.

The system returns error messages if the record contains errors. Scroll through the error messages and double-click on each error to access the field on the record that contains the error.

Step 2   Correct any mistakes and press 'Save', or press 'Incomplete' to save the record with an incomplete status.

Incomplete records (status 'I') are not submitted with the interactive or batch submissions.

Step 3   Press 'Send' to submit an interactive transmission for the record currently being accessed, or refer to Section 5.4, Submitting a 270 Batch Request, for instructions on batch submission.

NOTE:

The NCPDP Pharmacy Eligibility form cannot be sent in a batch form. This option is only available as an Interactive submission option.

Step 4   Press the 'Add' button to add another eligibility verification request.

To Modify a Record from the List

Scroll through the list of records that display at the bottom of the form. Highlight the record you wish to modify, and perform one of the following:

- Key over incorrect data on the record. You cannot do this unless the status is 'R' (ready to submit) or 'I' (incomplete). Save the changes. Press 'Undo All' if you inadvertently overwrite a correct record.

- Press 'Copy' to copy a verification request that closely matches the information you need to enter (for example, if you must enter an eligibility verification request for the same recipient on a different date of service) and modify the new record accordingly. Save the new record.

- Press 'Delete' to delete an unwanted record.

To Find a Record from the List

Press the 'Find' button to display the Find pop-up window. Options are:

- Find Where (select a field from the drop down list, if applicable)

- Find What (enter your search criteria here)

- Search (select up or down from the drop down list)

Once you have entered the search criteria, press the 'Find Next' button to search for the next record that matches the search criteria. Continue pressing 'Find Next' until you find the record you are searching for, or until the system returns a message indicating there are no records that match the search criteria.

Press 'Cancel' when you have finished searching.

Last Name	Enter the cardholder's last name. This field is optional.
First Name	Enter the cardholder's first name. This field is optional.

5.4   Submitting a 270 Batch Request

Review the steps for adding an eligibility verification record, modifying a record, and using the list feature as described in Section *5.1, Submitting an Interactive Request*. Most of these steps can be followed for submitting batch requests. Instead of pressing the Send key, however, you should keep saving records, and then submit the batch of 270 eligibility verification records using the procedures provided below.

Step 1   Select Communication>>Submission to display the Batch Submission window, pictured below:

Step 2   Determine whether you want to submit by web server or diskette by selecting the correct submission method from the Method drop down list.

Step 3   Determine which files you want to send from the Files to Send list.

Choose 'Select All' to select all files to send, 'Deselect All' to undo any selections you have made, or use the mouse (click once with the left mouse button) to select one form at a time, or multiple form types for submission.

Step 4   Determine which files you want to receive from the Files to Receive

Choose 'Select All' to select all files to receive, 'Deselect All' to undo any selections you have made, or use the mouse (click once with the left mouse button) to select one form at a time, or multiple form types for submission.

If you elect to submit by diskette, insert a diskette in your PC, press 'Submit', then follow the instructions provided. *Do not select any files to receive because your response will be mailed to you at a later date.*

NOTE:

For an NCPDP batch eligibility request, the files may only be uploaded via diskette. After the files have been copied to the diskette, upload them directly to the Web Server. Refer to section *5 Uploading HIPAA Files* in the Web User guide for additional instructions.

Step 5   Press the 'Submit' to submit (and receive) the files.

Provider Electronic Solutions connects to the web server and sends the response. The Verification Log (accessible by selecting Communication>>View Verification) and the Communication Log (accessible by selecting Communication>>View Communication Log) provide information regarding the transaction.

Step 6   Follow Steps 1-5 to receive the response from the Web Server.

Refer to Chapter 13, Receiving a Response, for information about receiving responses, resubmitting files, and reviewing submission reports.

NOTE:

When you submit batch transactions, you must wait a period of time (15 minutes to two hours, depending on the time of day you submit) to download responses to those transactions. Therefore, when you access the Submission window to send files and elect to receive files (steps 4-6 above), remember you are *receiving responses from your last transaction, not the current transmission.*

6   Submitting 837 Dental Claims

This chapter provides instructions for submitting electronic 837 Dental claims. Please note this user manual does not discuss program requirements. Refer to the Alabama Medicaid Provider Manual, *Chapter 13*, for program-specific information.

Users access the Dental electronic claim form using one of the following methods:

- Selecting the Dental icon from the toolbar

- Selecting Forms>>837 Dental

The electronic form displays with three tabs: Header 1, Header 2, and Service. The additional tab, if applicable, is: OI (Other Insurance).

6.1   Entering Claims in the Electronic Dental Form

Each tab on the Dental form contains four main parts:

- Header line of fields that contain provider and recipient information.

- Updateable fields used to enter claims data.

- Buttons to the right of the form used to modify and save information entered in the updateable fields.

- List fields at the bottom of the form enable users to view basic information about several claims. Users may highlight a row to modify, copy, or print a claim record.

Below is a description of the buttons that display on the claim form:

Button	Usage
Add	Pressing this button enables you to refresh the claim screen so you may add a new record. Please note that if you key over data that already displays on the claim form and press Save, you will overwrite the previous claim. Be sure to press Add before entering a new claim, or press Copy (see below) to build a new claim from an existing claim record. If you forget to do this and inadvertently key over a saved record, press Undo All (see below) to undo the changes.
Copy	Pressing this button enables you to build a new claim from an existing claim record. This feature is especially helpful if you routinely submit claims for the same procedure code, but different recipients, or for other instances where your claims may be similar to one another.
Delete	Pressing this button enables you to delete the claim currently displayed.
Undo All	Pressing this button enables you to undo changes you have made to the claim currently being displayed.
Save	Pressing this button enables you to save the claim you just added or modified. The saved claim displays on the list at the bottom of the form in an "R" status.
Find	Pressing this button enables you to search for a saved claim by status, last submit date, billed amount, first name, last name, or recipient ID.
Print	Pressing this button enables you to print the claim currently displayed.
Close	Pressing this button enables you to close the form.

To Add a New Claim

Step 1   Access the 837 Dental form. Key information into all required fields. (All fields are required unless indicated as optional.)

Field descriptions are provided below in the order they display on the form. You can enter information in any order, or may enter it in the order presented in the form, pressing the Tab key to move to the next field.

Step 2   Press the 'Save' button to save the record.

The system returns error messages if the claim contains errors. Scroll through the error messages and double-click on each error to access the field on the claim that contains the error.

Step 3   Correct the mistake and press 'Save', or press 'Incomplete' to save the record with an incomplete status.

Incomplete claims (status 'I') are not submitted with the batch submission.

Step 4   Press the 'Add' button to add another claim.

To Modify a Claim from the List

Scroll through the list of claims that display at the bottom of the form. Highlight the claim you wish to modify, and perform one of the following:

- Key over incorrect data on the claim form. *You cannot do this unless the status is 'R' (ready to submit) or 'I' (incomplete).* Save the changes. Press 'Undo All' if you inadvertently overwrite a correct claim.

- Press 'Copy' to copy a claim that closely matches the information you need to enter (for example, if you must enter claims for identical services, but different recipients). Modify the new record accordingly. Save the new record.

- Press 'Delete' to delete an unwanted record.

To Find a Record from the List

Press the 'Find' button to display the Find pop-up window. Options are:

- Find Where (select a field from the drop down list, if applicable)

- Find What (enter your search criteria here)

- Search (select up or down from the drop down list)

Once you have entered the search criteria, press the 'Find Next' button to search for the next record that matches the search criteria. Continue pressing 'Find Next' until you find the record you are searching for, or until the system returns a message indicating there are no records that match the search criteria.

Press 'Cancel' when you have finished searching.

7 Submitting NCPDP Pharmacy Claims

This chapter provides instructions for submitting electronic Pharmacy claims. Pharmacy claims may be submitted interactively or in batches. Therefore, a dial-up modem (specified in Chapter 2) is required to submit the NCPDP request interactively.

Please note this user manual does not discuss program requirements. Refer to the Alabama Medicaid Provider Manual for program-specific information.

Users access the Pharmacy electronic claim form using one of the following methods:

- R_X Selecting the NCPDP Pharmacy icon from the toolbar

- Selecting Forms>>NCPDP Pharmacy

The electronic form displays with three tabs: Header, Service 1 and Service 2.

7.1 Entering Claims in the Electronic NCPDP Pharmacy Form

Each tab on the Pharmacy form contains four main parts:

- Header line of fields that display the Provider and Recipient information.

- Updateable fields used to enter claims data.

- Buttons to the right of the form used to modify and save information entered in the updateable fields.

- List fields at the bottom of the form that enable users to view basic information about several claims. Users may highlight a row to modify, copy, or print a claim record. The list fields include Recipient ID, Last Name, First Name, Billed Amount, Last Submit Date, and Status.

Below is a description of the buttons that display on the claim form:

Button	Usage
Add	Pressing this button enables you to refresh the claim screen so you may add a new record. Please note that if you key over data that already displays on the claim form and press Save, you will overwrite the previous claim. Be sure to press Add before entering a new claim, or press Copy (see below) to build a new claim from an existing claim record. If you forget to do this and inadvertently key over a saved record, press Undo All (see below) to undo the changes.
Copy	Pressing this button enables you to build a new claim from an existing claim record. This feature is helpful if you routinely submit claims for the same procedure code, but different recipients, or when your claims may be similar to one another.
Delete	Pressing this button enables you to delete the claim currently displayed.
Undo All	Pressing this button enables you to undo changes you made to the claim currently being displayed.
Save	Pressing this button enables you to save the claim you just modified. The saved claim displays on the list at the bottom of the form.
Send	Pressing this button enables you to interactively submit the record currently being displayed.
Find	Pressing this button enables you to search for a saved claim by status, last submit date, billed amount, first name, last name, or recipient ID.

Button	Usage
Print	Pressing this button enables you to print the claim currently displayed.
Close	Pressing this button enables you to close the form.

Provider Electronic Solutions enables you to submit interactive pharmacy claims without saving the claim record, or after saving the claim record. To submit pharmacy claims as a batch, refer to section *7.3 Submitting Claims through the Web Server or Diskette*.

To Send an Interactive Claim without Saving the Record

Step 1   Access the Pharmacy form. Key information into all required fields.

Field descriptions are provided below in the order they display on the form. You can enter information in any order, or may enter it in the order presented in the form, pressing the Tab key to move to the next field.

Step 2   Press the 'Send' button to submit an interactive transmission for the record currently being accessed.

When you press 'Send', the system returns error messages if the claim contains errors. Scroll through the error messages and double-click on each error to access the field on the claim that contains the error.

Step 3   Press 'Send' once you have corrected any errors.

Step 4   Press 'Add' to enter another claim as required.

To Send an Interactive Claim after Saving the Record

Step 1   Access the Pharmacy form. Key information into all required fields.

Field descriptions are provided below in the order they display on the form. You can enter information in any order, or may enter it in the order presented in the form, pressing the Tab key to move to the next field.

Step 2   Press the 'Save' button to save the record.

The system returns error messages if the claim contains errors. Scroll through the error messages and double-click on each error to access the field on the claim that contains the error.

Step 3   Correct each error and press 'Save' or press 'Incomplete' to save the record with an incomplete status. The saved claim displays on the list at the bottom of the window.

Step 4   Press 'Send' once the record has been saved without errors.

Step 5   Press the 'Add' button to add another claim. You must do this if you saved the previous claim record to avoid overwriting it (see instruction in To Modify a Claim from the List, below).

DUR Alerts

With the interactive pharmacy claim submission, you receive alert information as part of Prospective Drug Utilization Review (Pro-DUR). Please refer to Chapter 27 of the Alabama Medicaid Provider Manual, Pharmacy, for a description of DUR alerts.

To Modify a Claim from the List

Scroll through the list of claims that display at the bottom of the form. Highlight the claim you wish to modify, and perform one of the following:

- Key over incorrect data on the claim form. You cannot do this unless the status is 'R' (ready to submit) or 'I' (incomplete). Save the changes. Press 'Undo All' if you inadvertently overwrite a correct claim.

- Press 'Copy' to copy a claim that closely matches the information you need to enter (for example, if you must enter claims for identical services, but different recipients) and modify the new record accordingly. Save the new record.

- Press 'Delete' to delete an unwanted record.

To Find a Record from the List

Press the 'Find' button to display the Find pop-up window. Options are:

- Find Where (select a field from the drop down list, if applicable)

- Find What (enter your search criteria here)

- Search (select up or down from the drop down list)

Once you have entered the search criteria, press the 'Find Next' button to search for the next record that matches the search criteria. Continue pressing 'Find Next' until you find the record you are searching for, or until the system returns a message indicating there are no records that match the search criteria.

Press 'Cancel' when you have finished searching.

Adding, Deleting, or Copying a Service

Use the buttons to the left of the form to add, copy, or delete a service. Once you copy a service, you can modify it as necessary.

7.3   Submitting Claims through the Web Server or Diskette

Step 1   Select Communication>>Submission to display the Batch Submission window, pictured below:

Step 2   Determine whether you want to submit by web server or diskette by selecting the correct submission method from the 'Method' drop down list.

Step 3   Determine which files you want to send from the 'Files to Send' list.

Choose 'Select All' to select all files to send, 'Deselect All' to undo any selections you have made, or use the mouse (click once with the left mouse button) to select one form at a time, or multiple form types for submission.

Step 4   Determine which files you want to receive from the 'Files to Receive' list.

Choose 'Select All' to select all files to receive, 'Deselect All' to undo any selections you have made, or use the mouse (click once with the left mouse button) to select one form at a time, or multiple form types for submission.

If you elect to submit by diskette, insert a diskette in your PC, press 'Submit', then follow the instructions provided. *Do not select any files to receive because your response will be mailed to you at a later date.*

Step 5   Press the 'Submit' button to submit and receive the files.

Provider Electronic Solutions connects to the web server and sends the response. The Communication Log (accessible by selecting Communication>>View Communication Log) provides information regarding the transaction.

Step 6   Follow Steps 1-5 to receive the response from the web server.

Refer to Chapter 13, Receiving a Response, for information about receiving responses, resubmitting files, and reviewing submission reports.

NOTE:

When you submit batch transactions, you must wait a period of time (15 minutes to two hours, depending on the time of day you submit) to download responses to those transactions. Therefore, when you access the Submission window to send files and elect to receive files (steps 4-6 above), remember you are *receiving responses from your last transaction, not the current transmission.* You must view the response to find if your claims were accepted or rejected. Claims rejected will not show up on your Explanation of Payment (EOP).

8   Submitting 837 Professional

This chapter provides instructions for submitting electronic 837 Professional claims. Please note this user manual does not discuss program requirements. Refer to the Alabama Medicaid Provider Manual for program-specific information.

8.1   General Instructions for Entering Electronic Claims

Users access the 837 Professional electronic claim form using one of the following methods:

- [icon] Selecting the 837 Professional icon from the toolbar

- Selecting Forms>>837 Professional

The electronic form displays with five tabs: Header 1, Header 2, Header 3, Service 1 and Service 2. The additional tabs, if applicable, are: OI (Other Insurance) and Crossover.

8.1.1 Entering Claims in the Electronic 837 Professional Forms

Each tab on the 837 Professional form contains four main parts:

- Header line of fields that contain provider and recipient information.

- Updateable fields used to enter claims data.

- Buttons to the right of the form used to save, delete, or modify information entered in the updateable fields.

- List fields at the bottom of the form that enable users to view basic information about several claims. Users may highlight a row to delete, copy, print, or modify a claim record. The list fields include Recipient ID, Last Name, First Name, Billed Amount, Last Submit Date, and Status.

Below is a description of the buttons that display on the claim form:

Button	*Usage*
Add	Pressing this button enables you to refresh the claim screen so you may add a new record. Please note that if you key over data that already displays on the claim form and press Save, you will overwrite the previous claim. Be sure to press Add before entering a new claim, or press Copy (see below) to build a new claim from an existing claim record. If you forget to do this and inadvertently key over a saved record, press Undo All (see below) to undo the changes.
Copy	Pressing this button enables you to build a new claim from an existing claim record that has been submitted previously. This feature is especially helpful if you routinely submit claims for the same procedure code, but different recipients, or for other instances where your claims may be similar to one another.
Delete	Pressing this button enables you to delete the claim currently displayed.
Undo All	Pressing this button enables you to undo changes you have made to the claim currently being displayed.
Save	Pressing this button enables you to save the claim you just added or modified. The saved claim displays on the list at the bottom of the form.

Button	Usage
Find	Pressing this button enables you to search for a saved claim by status, last submit date, billed amount, first name, last name, or recipient ID.
Print	Pressing this button enables you to print the claim currently displayed.
Close	Pressing this button enables you to close the form.

To Add a New Claim

Step 1   Access the 837 Professional form. Key information into all required fields.

Field descriptions are provided in section *8.2 837 Professional form* in the order they display on the form. You can enter information in any order, or may enter it in the order presented in the form, pressing the Tab key to move to the next field.

Step 2   Press the 'Save' button to save the record.

The system returns error messages if the claim contains errors. Scroll through the error messages and double-click on each error to access the field on the claim that contains the error.

Step 3   Correct each mistake and press 'Save', or press 'Incomplete' to save the record with an incomplete status.

Incomplete claims (status 'I') are not submitted with the batch submission.

Step 4   Press the 'Add' button to add another claim.

To Modify a Claim from the List

Scroll through the list of claims that display at the bottom of the form. Highlight the claim you wish to modify, and perform one of the following:

- Key over incorrect data on the claim form. You cannot do this unless the status is 'R' (ready to submit) or 'I' (incomplete). Save the changes. Press 'Undo All' if you inadvertently overwrite a correct claim.

- Press 'Copy' to copy a claim that closely matches the information you need to enter (for example, if you must enter claims for identical services, but different recipients) and modify the new record accordingly. Save the new record.

- Press 'Delete' to delete an unwanted record.

To Find a Record from the List

Press the 'Find' button to display the Find pop-up window. Options are:
- Find Where (select a field from the drop down list, if applicable)
- Find What (enter your search criteria here)
- Search (select up or down from the drop down list)
Once you have entered the search criteria, press the 'Find Next' button to search for the next record that matches the search criteria. Continue pressing 'Find Next' until you find the record you are searching for, or until the system returns a message indicating there are no records that match the search criteria.
Press 'Cancel' when you have finished searching.

8.3 Submitting Claims through the Web Server or Diskette

Step 1   Select Communication>>Submission to display the Batch Submission window, pictured below:

Step 2   Determine whether you want to submit by web server or diskette by selecting the correct submission method from the Method drop down list.

Step 3   Determine which files you want to receive from the Files to Receive list.

Choose 'Select All' to select all files to send, 'Deselect All' to undo any selections you have made, or use the mouse (click once with the left mouse button) to select one form at a time, or multiple form types for submission.

Step 4   Determine which files you want to receive from the 'Files to Receive' list.

Choose 'Select All' to select all files to receive, 'Deselect All' to undo any selections you have made, or use the mouse (click once with the left mouse button) to select one form at a time, or multiple form types for submission.

If you elect to submit by diskette, insert a diskette in your PC, press 'Submit', then follow the instructions provided. *Do not select any files to receive because your response will be mailed to you at a later date.*

Step 5   Press the 'Submit' to submit (and receive) the files.

Provider Electronic Solutions connects to the web server and sends the response. The Verification Log (accessible by selecting Communication>>View Verification) and the Communication Log (accessible by selecting Communication>>View Communication Log) provide information regarding the transaction.

Step 6   Follow Steps 1-5 to receive the response from the Web Server.

Refer to Chapter 13, Receiving a Response, for information about receiving responses, resubmitting files, and reviewing submission reports.

NOTE:

When you submit batch transactions, you must wait a period of time (15 minutes to two hours, depending on the time of day you submit) to download responses to those transactions. Therefore, when you access the Submission window to send files and elect to receive files (steps 4-6 above), remember you are *receiving responses from your last transaction, not the current transmission.*

9 Submitting 837 Institutional Inpatient Claims

This chapter provides instructions for submitting electronic 837 inpatient claims. Please note this user manual does not discuss program requirements. Refer to the Alabama Medicaid Provider Manual for program-specific information.

Users access the electronic 837 Institutional Inpatient claim form using one of the following methods:

- Selecting the 837 Institutional Inpatient icon from the toolbar

- Selecting Forms>>837 Institutional Inpatient

The electronic form displays with six tabs: Header 1, Header 2, Header 3, Header 4, and Service. The additional tabs, if applicable, are: OI (Other Insurance) and Crossover.

9.1   Entering Claims in the 837 Institutional Inpatient Form

Each tab on the 837 Institutional Inpatient form contains four main parts:

- Header line of fields that contain provider and recipient information.

- Updateable fields used to enter claims data.

- Buttons to the right of the form used to save, delete, or modify information entered in the updateable fields.

- List fields at the bottom of the form that enable users to view basic information about several claims. Users may highlight a row to delete, copy, print, or modify a claim record. The list fields include Recipient ID, Last Name, First Name, Billed Amount, Last Submit Date, and Status.

Below is a description of the buttons that display on the claim form:

Button	*Usage*
Add	Pressing this button enables you to refresh the claim screen so you may add a new record. Please note that if you key over data that already displays on the claim form and press Save, you will overwrite the previous claim. Be sure to press Add before entering a new claim, or press Copy (see below) to build a new claim from an existing claim record. If you forget to do this and inadvertently key over a saved record, press Undo All (see below) to undo the changes.
Copy	Pressing this button enables you to build a new claim from an existing claim record. This feature is especially helpful if you routinely submit claims for the same procedure code, but different recipients, or for other instances where your claims may be similar to one another.
Delete	Pressing this button enables you to delete the claim currently displayed.
Undo All	Pressing this button enables you to undo changes you have made to the claim currently being displayed.
Save	Pressing this button enables you to save the claim you just added or modified. The saved claim displays on the list at the bottom of the form.
Find	Pressing this button enables you to search for a saved claim by status, last submit date, billed amount, first name, last name, or recipient ID.

Button	Usage
Print	Pressing this button enables you to print the claim currently displayed.
Close	Pressing this button enables you to close the form.

To Add a New Claim

Step 1   Access the 837 Institutional Inpatient form. Key information into all required fields.

Field descriptions are provided below in the order they display on the form. You can enter information in any order, or may enter it in the order presented in the form, pressing the Tab key to move to the next field.

Step 2   Press the 'Save' button to save the record.

The system returns error messages if the claim contains errors. Scroll through the error messages and double-click on each error to access the field on the claim that contains the error.

Step 3   Correct each mistake and press 'Save', or press Incomplete to save the record with an incomplete status.

Incomplete claims (status 'I') are not submitted with the batch submission.

Step 4   Press the 'Add' button to add another claim.

To Modify a Claim from the List

Scroll through the list of claims that display at the bottom of the form. Highlight the claim you wish to modify, and perform one of the following:

- Key over incorrect data on the claim form. You cannot do this unless the status is 'R' (ready to submit) or 'I' (incomplete). Save the changes. Press 'Undo All' if you inadvertently overwrite a correct claim.

- Press 'Copy' to copy a claim that closely matches the information you need to enter (for instance, if you must enter claims for identical services, but different recipients) and modify the new record accordingly. Save the new record.

- Press 'Delete' to delete an unwanted record.

To Find a Record from the List

Press the 'Find' button to display the Find pop-up window. Options are:

- Find Where (select a field from the drop down list, if applicable)

- Find What (enter your search criteria here)

- Search (select up or down from the drop down list)

Once you have entered the search criteria, press the 'Find Next' button to search for the next record that matches the search criteria. Continue pressing 'Find Next' until you find the record you are searching for, or until the system returns a message indicating there are no records that match the search criteria.

Press 'Cancel' when you have finished searching

Adding, Deleting, or Copying a Service

Use the buttons to the left of the form to add, delete, or copy a service. Once you copy a service, you can modify it as necessary.

9.3 Submitting Claims through the Web Server or Diskette

Step 1   Select Communication>>Submission to display the Batch Submission window, pictured below:

Step 2   Determine whether you want to submit by web server or diskette by selecting the correct submission method from the 'Method' drop down list.

Step 3   Determine which files you want to send from the Files to Send list.

Choose 'Select All' to select all files to send, 'Deselect All' to undo any selections you have made, or use the mouse (click once with the left mouse button) to select one form at a time, or multiple form types for submission.

Step 4   Determine which files you want to receive from the Files to Receive list.

Choose 'Select All' to select all files to receive, 'Deselect All' to undo any selections you have made, or use the mouse (click once with the left mouse button) to select one form at a time, or multiple form types for submission.

If you elect to submit by diskette, insert a diskette in your PC, press 'Submit', then follow the instructions provided. *Do not select any files to receive because your response will be mailed to you at a later date.*

Step 5   Press the 'Submit' button to submit and receive the files.

Provider Electronic Solutions connects to the web server and sends the response. The Communication Log (accessible by selecting Communication>>View Communication Log) provides information regarding the transaction.

Step 6   Follow Steps 1-5 to receive the response from the Web Server.

Refer to Chapter 13, Receiving a Response, for information about receiving responses, resubmitting files, and reviewing submission reports.

NOTE:

When you submit batch transactions, you must wait a period of time (15 minutes to two hours, depending on the time of day you submit) to download responses to those transactions. Therefore, when you access the Submission window to send files and elect to receive files (steps 4-6 above), remember you are *receiving responses from your last transaction, not the current transmission.*

10 Submitting 837 Institutional Outpatient Claims

This chapter provides instructions for submitting electronic 837 outpatient claims. Please note this user manual does not discuss program requirements. Refer to the Alabama Medicaid Provider Manual for program-specific information.

Users access the electronic 837 Institutional Outpatient claim form using one of the following methods:

- Selecting the 837 Institutional Outpatient icon from the toolbar

- Selecting Forms>>837 Institutional Outpatient

The electronic form display's with four tabs: Header 1, Header 2. Header 3 and Service. The additional tabs, if applicable, are: OI (Other Insurance) and Crossover.

10.1 Entering Claims in the 837 Institutional Outpatient Form

Each tab on the 837 Institutional Outpatient form contains four main parts:

- Header line of fields that contain provider and recipient information.

- Updateable fields used to enter claims data.

- Buttons to the right of the form used to save, delete, or modify information entered in the updateable fields.

- List fields at the bottom of the form that enable users to view basic information about several claims. Users may highlight a row to delete, copy, print, or modify a claim record. The list fields include Recipient ID, Last Name, First Name, Billed Amount, Last Submit Date, and Status.

Below is a description of the buttons that display on the claim form:

Button	Usage
Add	Pressing this button enables you to refresh the claim screen so you may add a new record. Please note that if you key over data that already displays on the claim form and press Save, you will overwrite the previous claim. Be sure to press Add before entering a new claim, or press Copy (see below) to build a new claim from an existing claim record. If you forget to do this and inadvertently key over a saved record, press Undo All (see below) to undo the changes.
Copy	Pressing this button enables you to build a new claim from an existing claim record. This feature is especially helpful if you routinely submit claims for the same procedure code, but different recipients, or for other instances where your claims may be similar to one another.
Delete	Pressing this button enables you to delete the claim currently displayed.
Undo All	Pressing this button enables you to undo changes you have made to the claim currently being displayed.
Save	Pressing this button enables you to save the claim you just added or modified. The saved claim displays on the list at the bottom of the form.
Find	Pressing this button enables you to search for a saved claim by status, last submit date, billed amount, first name, last name, or recipient ID.
Print	Pressing this button enables you to print the claim currently displayed.
Close	Pressing this button enables you to close the form.

To Add a New Claim

Step 1 Access the 837 Institutional Outpatient form. Key information into all required fields.

Field descriptions are provided below in the order they display on the form. You can enter information in any order, or may enter it in the order presented in the form, pressing the Tab key to move to the next field.

Step 2 Press the 'Save' button to save the record.

The system returns error messages if the claim contains errors. Scroll through the error messages and double-click on each error to access the field on the claim that contains the error.

Step 3 Correct each mistake and press 'Save', or press Incomplete to save the record with an incomplete status.

Incomplete claims (status 'I') are not submitted with the batch submission.

Step 4 Press the 'Add' button to add another claim.

To Modify a Claim from the List

Scroll through the list of claims that display at the bottom of the form. Highlight the claim you wish to modify, and perform one of the following:

- Key over incorrect data on the claim form. You cannot do this unless the status is 'R' (ready to submit) or 'I' (incomplete). Save the changes. Press Undo All if you inadvertently overwrite a correct claim.

- Press 'Copy' to copy a claim that closely matches the information you need to enter (for instance, if you must enter claims for identical services, but different recipients) and modify the new record accordingly. Save the new record.

- Press 'Delete' to delete an unwanted record.

To Find a Record from the List

Press the 'Find' button to display the Find pop-up window. Options are:

- Find Where (select a field from the drop down list, if applicable)

- Find What (enter your search criteria here)

- Search (select up or down from the drop down list)

Once you have entered the search criteria, press the 'Find Next' button to search for the next record that matches the search criteria. Continue pressing 'Find Next' until you find the record you are searching for, or until the system returns a message indicating there are no records that match the search criteria.

Press 'Cancel' when you have finished searching.

10.3 Submitting Claims through the Web Server or Diskette

Step 1 Select Communication>>Submission to display the Batch Submission window, pictured below:

Step 2 Determine whether you want to submit by web server or diskette by selecting the correct submission method from the 'Method' drop down list.

Step 3 Determine which files you want to send from the Files to Send list.

Choose 'Select All' to select all files to send, 'Deselect All' to undo any selections you have made, or use the mouse (click once with the left mouse button) to select one form at a time, or multiple form types for archiving.

Step 4 Determine which files you want to receive from the Files to Receive list.

Choose 'Select All' to select all files to receive, 'Deselect All' to undo any selections you have made, or use the mouse (click once with the left mouse button) to select one form at a time, or multiple form types for submission.

If you elect to submit by diskette, insert a diskette in your PC, press 'Submit', then follow the instructions provided. *Do not select any files to receive because your response will be mailed to you at a later date.*

Step 5 Press the 'Submit' to submit (and receive) the files.

Provider Electronic Solutions connects to the web server and sends the response. The Communication Log (accessible by selecting Communication>>View Communication Log) provides information regarding the transaction.

Step 6 Follow Steps 1-5 to receive the response from the Web Server.

Refer to Chapter 13, Receiving a Response, for information about receiving responses, resubmitting files, and reviewing submission reports.

NOTE:

When you submit batch transactions, you must wait a period of time (15 minutes to two hours, depending on the time of day you submit) to download responses to those transactions. Therefore, when you access the Submission window to send files and elect to receive files (steps 4-6 above), remember you are *receiving responses from your last transaction, not the current transmission.*

- Selecting the 837 Institutional Nursing Home icon from the toolbar

- Selecting Forms>>837 Institutional Outpatient

The electronic form display's with five tabs: Header 1, Header 2, Header 3, Header 4, and Service. The additional tabs, if applicable, are: OI (Other Insurance) and Crossover.

11.1   Entering Claims in the 837 Institutional Nursing Home Form

Each tab on the 837 Institutional Nursing Home form contains four main parts:

- Header line of fields that contain provider and recipient information.

- Updateable fields used to enter claims data.

- Buttons to the right of the form used to save, delete, or modify information entered in the updateable fields.

- List fields at the bottom of the form that enables users to view basic information about several claims. Users may highlight a row to delete, copy, print, or modify a claim record. The list fields include Recipient ID, Last Name, First Name, Billed Amount, Last Submit Date, and Status.

Below is a description of the buttons that display on the claim form:

Button	*Usage*
Add	Pressing this button enables you to refresh the claim screen so you may add a new record. Please note that if you key over data that already displays on the claim form and press Save, you will overwrite the previous claim. Be sure to press Add before entering a new claim, or press Copy (see below) to build a new claim from an existing claim record. If you forget to do this and inadvertently key over a saved record, press Undo All (see below) to undo the changes.
Copy	Pressing this button enables you to build a new claim from an existing claim record. This feature is especially helpful if you routinely submit claims for the same procedure code, but different recipients, or for other instances where your claims may be similar to one another.
Delete	Pressing this button enables you to delete the claim currently displayed.
Undo All	Pressing this button enables you to undo changes you have made to the claim currently being displayed.
Save	Pressing this button enables you to save the claim you just added or modified. The saved claim displays on the list at the bottom of the form.

Button	Usage
Find	Pressing this button enables you to search for a saved claim by status, last submit date, billed amount, first name, last name, or recipient ID.
Print	Pressing this button enables you to print the claim currently displayed.
Close	Pressing this button enables you to close the form.

To Add a New Claim

Step 1   Access the 837 Institutional Nursing Home form. Key information into all required fields.

Field descriptions are provided below in the order they display on the form. You can enter information in any order, or may enter it in the order presented in the form, pressing the Tab key to move to the next field.

Step 2   Press the 'Save' button to save the record.

The system returns error messages if the claim contains errors. Scroll through the error messages and double-click on each error to access the field on the claim that contains the error.

Step 3   Correct each mistake and press 'Save', or press 'Incomplete' to save the record with an incomplete status.

Incomplete claims (status 'I') are not submitted with the batch submission.

Step 4   Press the 'Add' button to add another claim.

To Modify a Claim from the List

Scroll through the list of claims that display at the bottom of the form. Highlight the claim you wish to modify, and perform one of the following:

- Key over incorrect data on the claim form. You cannot do this unless the status is 'R' (ready to submit) or 'I' (incomplete). Save the changes. Press 'Undo All' if you inadvertently overwrite a correct claim.

- Press 'Copy' to copy a claim that closely matches the information you need to enter (for instance, if you must enter claims for identical services, but different recipients) and modify the new record accordingly. Save the new record.

- Press 'Delete' to delete an unwanted record.

To Find a Record from the List

Press the 'Find' button to display the Find pop-up window. Options are:

- Find Where (select a field from the drop down list, if applicable)

- Find What (enter your search criteria here)

- Search (select up or down from the drop down list)

Once you have entered the search criteria, press the 'Find Next' button to search for the next record that matches the search criteria. Continue pressing 'Find Next' until you find the record you are searching for, or until the system returns a message indicating there are no records that match the search criteria.

Press 'Cancel' when you have finished searching.

11.3 **Submitting Claims through the Web Server or Diskette**

Step 1   Select Communication >> Submission to display the Batch Submission
window, pictured below:

Step 2   Determine whether you want to submit by web server or diskette by selecting
the correct submission method from the 'Method' drop down list.

Step 3   Determine which files you want to send from the Files to Send list.

Choose 'Select All' to select all files to send, 'Deselect All' to undo any
selections you have made, or use the mouse (click once with the left mouse
button) to select one form at a time, or multiple form types for archiving.

Step 4   Determine which files you want to receive from the Files to Receive list.

Choose 'Select All' to select all files to receive, 'Deselect All' to undo any
selections you have made, or use the mouse (click once with the left mouse
button) to select one form at a time, or multiple form types for submission.

If you elect to submit by diskette, insert a diskette in your PC, press 'Submit',
then follow the instructions provided. *Do not select any files to receive
because your response will be mailed to you at a later date.*

Step 5   Press the 'Submit' to submit (and receive) the files.

Provider Electronic Solutions connects to the web server and sends the
response. The Communication Log (accessible by selecting
Communication>>View Communication Log) provides information regarding
the transaction.

Step 6   Follow Steps 1-5 to receive the response from the Web Server.

Refer to Chapter 13, Receiving a Response, for information about receiving responses,
resubmitting files, and reviewing submission reports.

NOTE:

When you submit batch transactions, you must wait a period of time (15 minutes to two hours, depending on the time of day you submit) to download responses to those transactions. Therefore, when you access the Submission window to send files and elect to receive files (steps 4-6 above), remember you are *receiving responses from your last transaction, not the current transmission.*

12 Submitting Claim Reversals and Adjusting Paid Claims

This chapter provides instructions for submitting electronic pharmacy and non-pharmacy claim reversals. Reversals for non-pharmacy claims may be submitted by batch, or by diskette. Pharmacy related claims can be sent interactively or by diskette.

Please note this user manual does not discuss program requirements. Refer to the Alabama Medicaid Provider Manual for program-specific information.

12.1 General Instructions for Entering Reversals

Users access the NCPDP Pharmacy Claim Reversal window using one of the following methods:

- Selecting the NCPDP Pharmacy Claim Reversal icon from the toolbar

- Selecting Forms>> NCPDP Pharmacy Reversal

Users access the non-pharmacy claim reversal option using one of the following methods:

- Selecting the designated form that the claim was originally filed from the toolbar

  (Example: If the claim paid as an 837 Professional, choose the icon)

- Selecting Forms>> then choosing the designated form that the claim was originally filed on.

  (Example: If the claim paid as an 837 Professional, choose Forms>>837 Professional)

12.1.1 Entering Reversal/Adjustment Requests

The NCPDP Pharmacy Claim Reversal window contains three main parts:

- Updateable fields used to enter claims data.

- Buttons to the right of the form used to save, delete, or modify information entered in the updateable fields.

- List fields at the bottom of the form that enable users to view basic information about several reversal records. Users may highlight a row to delete, copy, print, or modify a claim record. The list fields include Provider ID, Recipient ID, ICN, and Status.

Below is a description of the buttons that display on the claim form:

Button	Usage
Add	Pressing this button enables you to refresh the window so you may add a new record. Please note that if you key over data that already displays on the record and press Save, you will overwrite the previous record. Be sure to press Add before entering a new record, or press Copy (see below) to build a new record from an existing claim record. If you forget to do this and inadvertently key over a saved record, press Undo All (see below) to undo the changes.
Copy	Pressing this button enables you to build a new record from an existing record. This feature is especially helpful if you are entering multiple batch reversals for batch submission.
Delete	Pressing this button enables you to delete the record currently displayed.
Undo All	Pressing this button enables you to undo changes you have made to the record currently displayed.
Save	Pressing this button enables you to save the record you just added or modified. The saved record displays on the list at the bottom of the form.
Send	Pressing this button enables you to interactively submit the record currently being displayed.
Find	Pressing this button enables you to search for a saved record by status, last provider ID, recipient ID, and ICN.
Print	Pressing this button enables you to print the record currently displayed.
Close	Pressing this button enables you to close the form.

To Add a New Record

Step 1   Key information into all required fields.

Field descriptions are provided below in the order they display on the form. You can enter information in any order, or may enter it in the order presented in the form, pressing the 'Tab' key to move to the next field.

Step 2   Press the 'Save' button to save the record.

The system returns error messages if the claim contains errors. Scroll through the error messages and double-click on each error to access the field on the claim that contains the error.

Step 3   Correct each mistake and press 'Save', or press 'Incomplete' to save the record with an incomplete status.

Incomplete claims (status 'I') are not submitted with the batch submission.

Step 4   Press 'Send' to submit an interactive transmission for the record currently being accessed, or refer to Section 12.5, Submitting Reversals/Adjustments through Web Server or Diskette, for instructions on batch submission.

Step 5   Press the 'Add' button to add another record.

To Modify a Claim from the List

Scroll through the list of claims that display at the bottom of the form. Highlight the record you wish to modify, and perform one of the following:

- Key over incorrect data on the window. You cannot do this unless the status is 'R' (ready to submit) or 'I' (incomplete). Save the changes. Press 'Undo All' if you inadvertently overwrite a correct record.

- Press 'Copy' to copy a record that closely matches the information you need to enter and modify the new record accordingly. Save the new record.

- Press 'Delete' to delete an unwanted record.

To Find a Record from the List

Press the 'Find' button to display the Find pop-up window. Options are:

- Find Where (select a field from the drop down list, if applicable)

- Find What (enter your search criteria here)

- Search (select up or down from the drop down list)

Once you have entered the search criteria, press the 'Find Next' button to search for the next record that matches the search criteria. Continue pressing 'Find Next' until you find the record you are searching for, or until the system returns a message indicating there are no records that match the search criteria.

Press 'Cancel' when you have finished searching.

12.2 Claim Adjustments/Reversals for Non-Institutional Claims

Step 1 Open the non-institutional form type that the original claim paid as.

If the claim was originally keyed into PES, you may locate that particular claim in an "F" status and press "Copy" to begin adjusting or reversing the claim.

Step 2 In the Claim Frequency field change the indicator to inform Medicaid if the request is an Adjustment or a Claim Reversal.

NOTE:

7 (Replace a prior paid claim.) Please be aware, the payer is to operate on the principle that the original claim will be changed, and that the information present on this adjustment represents a complete replacement of the previously issued bill.

8 (Void or reverse a prior claim.) Please be aware, the payer is to operate on the principle that the original claim will be reversed, and that the information present on this reversal represents a complete void of the paid claim.

Step 3 In the Original Claim # field enter the ICN number assigned by Medicaid once the claim was accepted and paid. This information can be located on your Batch Response report or *Explanation of Payment*.

Step 4 Fill out the form type according to how it was filed previously. Include the same Recipient ID, and Provider ID that was filed on the original claim.

- If the value '7' was chosen, enter the original claim exactly how it was filed except for the adjustments to be made to the claim. Whatever information is submitted on this claim will replace the claim with the ICN # from Step 3.

- If the value '8' was chosen, enter the original claim exactly how it was filed to complete the claim reversal. Once submitted, this reversal will cross-reference the provider ID and the recipient ID against the ICN # entered. If these fields do not match the information on the original claim, the reversal will be denied.

Step 5 Press 'Save' to save your claim, and follow Section 12.5, Submitting Reversals/Adjustments through Web Server or Diskette.

NOTE:

To adjust a paid non-pharmacy claim, wait until you have received your Explanation of Payment (EOP) listing the paid claim

You can adjust paid non-pharmacy claims up to three years from the date of payment; however, filing limits apply to claims re-filed as a result of an electronic adjustment or pharmacy reversal.

12.3 Claim Adjustments/Reversals for Institutional Claims

Step 1 Open the Institutional form type that the original claim paid as.

If the claim was originally keyed into PES, you may locate that particular claim in an "F" status and press 'Copy' to begin adjusting the claim.

Step 2 In the Type of Bill field the last digit of the three-digit code will inform Medicaid if the claim is a reversal or an adjustment. End the Type of Bill with a '7' or an '8' to indicate an adjustment or a reversal. See the NOTE below.

NOTE:

7 (Replace a prior paid claim.) Please be aware, the payer is to operate on the principle that the original claim will be changed, and that the information present on this adjustment represents a complete replacement of the previously issued bill.

8 (Void or reverse a prior claim.) Please be aware, the payer is to operate on the principle that the original claim will be reversed, and that the information present on this reversal represents a complete void of the paid claim.

Step 3 In the Original Claim # field enter the ICN number assigned by Medicaid once the claim was accepted and paid. This information can be located on your Batch Response report or *Explanation of Payment*.

Step 4 Fill out the form type according to how it was filed previously. Be sure to include the same Recipient ID, and Provider ID that was filed on the original claim.

- If the type of bill ended with a '7', enter the original claim exactly how it was filed except for the adjustments to be made to the claim. Whatever information is submitted on this claim will replace the claim with the ICN # from Step 3.

- • If the type of bill ended with a '8', enter the original claim exactly how it was filed to complete the claim reversal. Once submitted, this reversal will cross-reference the provider ID and the recipient ID against the ICN # entered. If these fields do not match the information on the original claim, the reversal will be denied.

Step 5 Press 'Save' to save your claim, and follow Section 12.5, Submitting Reversals/Adjustments through Web Server or Diskette.

NOTE:

To adjust a paid non-pharmacy claim, wait until you have received your Explanation of Payment (EOP) listing the paid claim

You can adjust paid non-pharmacy claims up to three years from the date of payment; however, filing limits apply to claims re-filed as a result of an electronic adjustment or pharmacy reversal.

12.4 NCPDP Pharmacy Reversal Window

Below is a sample Pharmacy Reversal window:

Complete the following fields under the NCPDP Pharmacy Reversal tab to submit a pharmacy claim reversal:

First Name	This field will auto-write based on the information placed in the Recipient ID field.
Date of Service	Enter the date the prescription was dispensed to the recipient in MM/DD/CCYY format.
Prescription #	Enter the 7-digit prescription number.
NDC	Enter the 11-digit National Drug Code (NDC).

NOTE:

You can submit claim reversals for pharmacy claims up to 18 months after the claim was paid.

12.5 Submitting Reversals/Adjustments through the Web Server or Diskette

Follow Steps 1-5 to receive the response from the Web Server.

Step 1   Select Communication>>Submission to display the Batch Submission window, pictured below:

Step 2   Determine whether you want to submit by web server or diskette by selecting the correct submission method from the Method drop down list.

Step 3   Determine which files you want to send from the Files to Send list.

Choose 'Select All' to select all files to send, 'Deselect All' to undo any selections you have made, or use the mouse (click once with the left mouse button) to select one form at a time, or multiple form types for archiving.

Step 4   Determine which files you want to receive from the 'Files to Receive' list.

Choose 'Select All' to select all files to receive, 'Deselect All' to undo any selections you have made, or use the mouse (click once with the left mouse button) to select one form at a time, or multiple form types for submission.

If you elect to submit by diskette, insert a diskette in your PC, press 'Submit', then follow the instructions provided. *Do not select any files to receive because your response will be mailed to you at a later date.*

Step 5   Press the 'Submit' to submit (and receive) the files.

Provider Electronic Solutions connects to the web server and sends the response. The Communication Log (accessible by selecting Communication>>View Communication Log) provides information regarding the transaction.

Refer to Chapter 13, Receiving a Response, for information about receiving responses, resubmitting files, and reviewing submission reports.

NOTE:

When you submit batch transactions, you must wait a period of time (15 minutes to two hours, depending on the time of day you submit) to download responses to those transactions. Therefore, when you access the Submission window to send files and elect to receive files (steps 4-6 above), remember you are *receiving responses from your last transaction, not the current transmission.* You must view the response to find if your claims were accepted or rejected. Rejected request will not show up on your Explanation of Payment (EOP).

This page is intentionally left blank.

13 Receiving a Response

This chapter describes how to download a response, resubmit a batch, and understand the corresponding submission reports. It also discusses diskette and interactive submission and response.

Chapter 13, Receiving a Response, contains the following sections:

- Sending batch transactions to the Web Server

- Downloading responses from the Web Server

- Viewing batch responses

- Resubmitting batches

- Submitting batches by diskette

- Interactive submission and response

13.1 Sending Batch Transactions to the Web Server

Provider Electronic Solutions enables you to submit batch (groups of one or more records) transactions to the EDS Web Server for all claim types (except NCPDP claims), eligibility verification, claim status, prior authorization, and claim reversals. You can send batch transmissions for any combination of record types – for example, you can enter all your daily claims for 837 Professional and 276 Claim Status then submit them all in one batch transmission.

Likewise, you can submit eligibility verification and claim records together in the same batch transmission. *Provider Electronic Solutions* also enables you to upload responses while you are downloading batches to the Web Server.

NOTE:

You may download (send) and upload (receive) batches as often as you like; however, if you are using a dial-up modem, there is a long distance charge associated with each transmission if you are located outside the Montgomery calling area.

Records that are ready for batch submission have a status of 'R'. The status displays on the list field at the bottom of the claim, eligibility, claim status, or prior authorization form. Once you have added and saved all the records you want to include in your batch (see Chapters 5 -13 for instructions), perform the following steps to submit a batch transmission:

Step 1   Select Communication>>Submission to display the Batch Submission window, pictured below:

Step 2   Determine whether you want to submit by web server or diskette by selecting the correct submission method from the Method drop down list. See Section 13.5, Submitting Batches by Diskette, for instructions on submitting diskettes to EDS.

Step 3   Determine which files you want to send from the 'Files to Send' list.

Choose 'Select All' to select all files to receive, 'Deselect All' to undo any selections you have made, or use the mouse (click once with the left mouse button) to select one form at a time, or multiple form types for submission.

If you elect to submit by diskette, insert a diskette in your PC, press 'Submit', then follow the instructions provided. *Do not select any files to receive because your response will be mailed to you at a later date.*

Step 4   Determine the files you want to receive from the Files to Receive list.

Provider Electronic Solutions connects to the web server and sends the response. The Communication Log (accessible by selecting Communication>>View Communication Log) provides information regarding the transaction.

Step 5   Follow Steps 1-5 to receive the response from the Web Server

NOTE:

When you submit batch transactions, you must wait a period of time (15 minutes to two hours, depending on the time of day you submit) to download responses to those transactions. Therefore, when you access the Submission window to send files and elect to receive files (steps 4-6 above), remember you are *receiving responses from your last transaction, not the current transmission.* You must view the response to find if your claims were accepted or rejected. Claims rejected will not show up on your Explanation of Payment (EOP).

13.2 Downloading Responses from the Web Server

You can download responses from the web server in as little as fifteen minutes to one hour after submission.

To download a response, follow the instructions provided in Section 13.1, Sending Batch Transactions to the Web Server. The system displays a 'Submission Successful' message when it successfully connects with the Web Server. This does not mean that your response file has been downloaded.

To determine whether a response has been downloaded, review the file name in the Communication Log or the Verification Log and search for that file name in the Response Log. You can also watch the system as it attempts to download a response. If *Provider Electronic Solutions* locates your response file on the Web Server, it will indicate the number of files downloaded in the lower left hand corner of your screen.

View the response by selecting the Communications>>View Batch Response menu option.

13.3 Viewing Responses

This section describes viewing the batch response, claim submission response, Report/997s, and communication log screens.

View Batch Response

This option enables the user to view a Claim Submission Response (CSR). The report shows whether or not claims were accepted or rejected as well as the batch identification number. The accepted and rejected claims will be in the order they were sent and will indicate the accepted ICN number or rejected reasons accordingly. The 997-response file is also accessible in this screen.

The 997-response informs the user if the claim was successfully uploaded to the web server and if the claim was HIPAA compliant. *Provider Electronic Solutions* will not allow a user to send a Non-HIPAA compliant transaction, therefore all 997 responses should be sent back with an AK5 indicating the file was HIPAA compliant and will cycle to Medicaid for processing.

NOTE:

An electronic version of the EOP (835) is available if a request was signed and sent to the EMC Helpdesk. Although Provider Electronic Solutions has the ability to download the file, it does not allow the user to view it. Therefore, if an electronic version of the 835 report is desired, the user must contact an outside vendor for a program that is able to format the file into a report.

View Communication Log

This option enables the user to view a log of each transaction that occurs between *Provider Electronic Solutions* and the EDS system (interactive submission) or Web Server (batch submission and software upgrades). Each occurrence is assigned a file name. Users scroll down the list of file names located at the top of the Communication Log window and click on a row to access the log associated with the file name.

13.4 Resubmitting Batches

Select Communication>>Resubmission to resubmit entire batches, resubmit records within batches, or to copy batches or records within batches for modification and resubmission. The Batch Resubmission window displays.

Users select from a list of previously submitted batches. The user highlights a particular batch to display all records stored within the batch. The user may perform any of the following:

- Click 'Select All' to select all records within a batch for resubmission, then press the 'Resubmit' button to resubmit the batch

- Click on one or more records for the batch displayed and press 'Resubmit'

- Select the 'Copy' button to copy the entire batch

- Click on one or more records for the batch displayed and press 'Copy'

To modify copied records, access the corresponding claim, eligibility, or claim status form and select the copied record from the list that displays at the bottom of the form. Modify and save the record, then submit according to the instructions in Section 13.1, Sending Batch Transactions to the Web Server.

13.5 Submitting Batches by Diskette

To submit batches by diskette, select Diskette from the Method drop down list on the Batch Submission window. Insert a diskette in your PC's diskette drive. Click on the record type(s) you want to submit. Press the 'Submit' button and follow the directions issued from the system.

Mail the disk to the following address:

EDS

Attn: EMC Help Desk

301 Technacenter Drive
Montgomery, AL 36117

EDS receives the diskette and submits the data using a locally installed copy of *Provider Electronic Solutions*. Rejection notice reports (remember, rejected claims are not issued an ICN) are sent to the provider. Providers receive paid and denied claims information (for claims that pass the initial system edits and are sent to the EDS system for processing) on the Explanation of Payment (EOP) mailed to the provider's billing address.

13.6 Interactive Submission and Response

Pharmacy claims, claim reversals, claim status and eligibility verification requests may be sent interactively. Interactive requests are sent directly to the EDS system.

Providers key information into the pharmacy, non-pharmacy claim reversal, pharmacy claim reversal, or eligibility verification forms and press the 'Send' button.

Provider Electronic Solutions dials into the server and displays the following Transmission pop-up window:
Provider Electronic Solutions returns a response within seconds of reaching the EDS system. The length of time it takes to reach the EDS system may vary according to your modem speed.

The Transmission pop-up window indicates when the transmission is complete along with the transaction response. Once the user closes this response screen, the accepted or rejected transaction is no longer accessible. *Printing this response before closing it would be recommended if you wish to view the response again.*

Rejected Transmissions

This report indicates what was wrong with the transmitted record. It defines each error with a code and accompanying text description. To correct and resubmit a rejected record, access the form that corresponds to the record type and perform the following:

- Scroll through the transactions to identify the request you just submitted to Medicaid which should be in an "I" (Incomplete) status.

- Highlight the record and press the 'Copy' button. You cannot modify a record that has been submitted to the EDS system. You must modify a copy of the record.

- Make any necessary changes to the copied record and press the 'Send' button

NOTE:

Although you can submit interactively without saving the record (just key in the information and press Send), you may want to save the record before sending it. This way, you can copy the record, make corrections, and resubmit if the record is rejected.

Accepted Transmissions

The report displays one of the following, depending on the record type:

- Verification the claim reversal was accepted

- Eligibility verification information as described in Chapter 3, Verifying Eligibility, of the Alabama Medicaid Provider Manual

- Paid amount, ICN, and response date for pharmacy claims

- Claim Status for claims in process with Alabama Medicaid

- You can submit claim reversals for pharmacy claims up to 18 months after the claim was paid.

This page is intentionally left blank.

14 Producing Reports

This chapter describes how to select and produce detail, summary, and list reports. It contains the following sections:

- Detail and Summary Reports
- Other Reports

14.1 Detail and Summary Reports

Provider Electronic Solutions enables you to print detail and summary reports for your claims, eligibility verification requests, pharmacy reversals, claim status and prior authorization requests.

Selecting Reports>>Detail Forms enables you to produce a detail report that shows the claim in its entirety.

Selecting Reports>>Summary Forms enables you to produce summary reports such as the basic recipient information, billed amount, the date the claim was last submitted, claim status and the service (claim) lines.

When you select either the detail or summary menu options, you must also select a form. The Detail or Summary Reports window displays accordingly. To customize the report, enter information into at least one of the following fields and press 'Enter':

- Batch Number
- Recipient ID
- Form Status
- Submit Date

The system displays a print preview of the report and populates the Records Selected field with the number of records included on the report. Send the report to your printer as required.

14.2 Generating a Detail Form Report

You may select any option available on the Detail Form screen. Choosing this option will allow you to generate a detailed report for any claim type, eligibility request, claim status, or prior authorization request. Follow the step-by-step procedures below to complete this process:

Step 1   Click on Reports >> Detail Forms >> and choose the desired report. The available list includes:
- 270 Eligibility Request.
- 276 Claim Status Request
- 278 Prior Authorization Request
- 837 Dental
- 837 Institutional Inpatient
- 837 Institutional Nursing Home
- 837 Institutional Outpatient
- 837 Professional
- NCPDP Pharmacy Eligibility
- NCPDP Pharmacy
- NCPDP Pharmacy Reversal

NOTE:

Creating these detailed reports will not include the responses created upon transmission. The only claim status you will receive on this report is the status of the claim within the Provider Electronic Solutions software. The status indicators include F (Finished/or successfully sent to Medicaid), A (Archived), I (Incomplete Transmission), P (Pending) and R (Ready to send).

These reports are to be used as a form of proof of filing, claim entry and internal usage.

Step 2   Choose one of the search criteria's to generate your report. A listing of each option is defined below:

Search Criteria Option	Usage
Batch Number	This number creates a report according to the information entered and submitted on one particular batch transmission. You can locate the Batch Numbers within the Communication>>Resubmission screen.
Recipient ID	To limit the detail report to request for a certain recipient, enter the appropriate 12-digit recipient ID in this field
Form Status	To create a detailed report according to a certain form status, select the appropriate form status from this field's pull-down list.
Submit Date	To create a detailed report, according to the date of submission, enter the appropriate date in MM/DD/CCYY format.

Step 3   Click 'OK' after entering or choosing a value in one of the option screens as listed in Step 2.

Step 4   Click on 'Print' if you wish to print a copy of the report listed on your screen.

Step 5   Click on 'Close' to exit the Detail Report screen.

14.2.1 Generating a Summary Report

You may select any option available on the Summary Form screen. Choosing this option will allow you to generate a basic report for any claim type, eligibility request, claim status, or prior authorization request. Follow the step-by-step procedures below to complete this process:

Step 1   Click on Reports >> Summary Forms >> and choose the desired report. The available list includes:
- 270 Eligibility Request.
- 276 Claim Status Request
- 278 Prior Authorization Request
- 837 Dental
- 837 Institutional Inpatient
- 837 Institutional Nursing Home
- 837 Institutional Outpatient
- 837 Professional
- NCPDP Pharmacy Eligibility
- NCPDP Pharmacy
- NCPDP Pharmacy Reversal

Step 2   Choose one of the search criteria's to generate your report. A listing of each option is defined below:

Search Criteria Option	Usage
Batch Number	This number creates a report according to the information entered and submitted on one particular batch transmission. You can locate the Batch Numbers within the Communication>>Resubmission screen.
Recipient ID	To limit the detail report to request for a certain recipient, enter the appropriate 12-digit recipient ID in this field
Form Status	To create a detailed report according to a certain form status, select the appropriate form status from this field's pull-down list.
Submit Date	To create a detailed report, according to the date of submission, enter the appropriate date in MM/DD/CCYY format.

Step 3   Click OK after entering or choosing a value in one of the option screens as listed in Step 2.

Step 4   Click on 'Print' if you wish to print a copy of the report listed on your screen.

Step 5   Click on 'Close' to exit the Detail Report screen.

14.3 Other Reports

Provider Electronic Solutions enables you to print reports of all you have stored in your list screens. Select the Reports menu option, then choose from the following:

- Attending/Operating Provider
- Provider
- Prescriber
- Recipient
- Admission Type
- Carrier
- Condition Code
- Diagnosis
- Modifier

- NDC
- Occurrence
- Other Insurance Reason
- Patient Status
- Place Of Service
- Policy Holder
- Procedure/HCPCS
- Revenue
- Taxonomy
- Type Of Bill

NOTE:

You may print from any of these reports as you so choose. Please be advised that the information displayed within the report is based on your List screens. The Place Of Service and Carrier lists have already been populated by EDS. The remainders of your list screen are only populated if the user so chooses to enter and save such information.

15 Submitting 278 Prior Authorization Requests

This chapter provides instructions for submitting electronic requests for the 278 Prior Authorization form, which is available for Medical and Dental requests. Please note this user manual does not discuss program requirements. Refer to the Alabama Medicaid Provider Manual for program-specific information.

Users access the 278 Prior Authorization request form using one of the following methods:

- Selecting the Prior Authorization Request icon from the toolbar called "Prior Auth"

- Selecting Forms>>278 Prior Authorization Request

The electronic form displays with nine tabs: Header 1, Header 2, Header 3, Header 4, Header 5, Service 1, Service 2, Service 3, and Service 4.

15.1 Entering Requests Using the 278 Prior Authorization Form

Each tab on the 278 Prior Authorization form contains four main parts:

- Header line of fields that contain provider and recipient information.

- Updateable fields used to enter PA request data.

- Buttons to the right of the form used to modify and save information entered in the updateable fields.

- List fields at the bottom of the form that enable users to view basic information about several PA requests. Users may highlight a row to modify, copy, or print a PA request record. The list fields include Recipient ID, Last Name, First Name, Billed Amount, Last Submit Date, and Status.

Below is a description of the buttons that display on the PA request form:

Button	*Usage*
Add	Pressing this button enables you to refresh the PA request screen so you may add a new record. Please note that if you key over data that already displays on the PA request form and press Save, you will overwrite the previous PA request. Be sure to press Add before entering a new PA request, or press Copy (see below) to build a new PA request from an existing PA request record. If you forget to do this and inadvertently key over a saved record, press Undo All (see below) to undo the changes.
Copy	Pressing this button enables you to build a new PA request from an existing PA request record. This feature is especially helpful if you routinely submit PA request for the same procedure code for different recipients or for other instances where your PA request may be similar to one another.
Delete	Pressing this button enables you to delete the PA request currently displayed.
Undo All	Pressing this button enables you to undo changes you have made to the PA request currently being displayed.
Save	Pressing this button enables you to save the PA request you just added or modified. The saved PA request displays on the list at the bottom of the form.
Find	Pressing this button enables you to search for a saved PA request by status, last submit date, billed amount, first name, last name, or recipient ID.
Print	Pressing this button enables you to print the PA request currently displayed.

Button	Usage
Close	Pressing this button enables you to close the form.

To Add a New PA request

Step 1   Access the 278 Prior Authorization form. Key information into all required fields.

Field descriptions are provided below in the order they display on the form. You can enter information in any order, or may enter it in the order presented in the form, pressing the Tab key to move to the next field.

Step 2   Press the 'Save' button to save the record.

The system returns error messages if the PA request contains errors. Scroll through the error messages and double-click on each error to access the field on the PA request that contains the error.

Step 3   Correct each mistake and press Save', or press 'Incomplete' to save the record with an incomplete status.

Incomplete PA requests (status 'I') are not submitted with the batch submission.

Step 4   Press the 'Add' button to add another PA request.

To Modify a PA request from the List

Scroll through the list of PA request that display at the bottom of the form. Highlight the PA request you wish to modify, and perform one of the following:

- Key over incorrect data on the PA request form. You cannot do this unless the status is 'R' (ready to submit) or 'I' (incomplete). Save the changes. Press 'Undo All' if you inadvertently overwrite a correct PA request.

- Press 'Copy' to copy a PA request that closely matches the information you need to enter (for instance, if you must enter PA request for identical services, but different recipients) and modify the new record accordingly. Press 'Save" to save the new record.

- Press 'Delete' to delete an unwanted record.

To Find a Record from the List

Press the 'Find' button to display the Find pop-up window. Options are:

- Find Where (select a field from the drop down list, if applicable)

- Find What (enter your search criteria here)

- Search (select up or down from the drop down list)

Once you have entered the search criteria, press the 'Find Next' button to search for the next record that matches the search criteria. Continue pressing 'Find Next' until you find the record you are searching for, or until the system returns a message indicating there are no records that match the search criteria.

Press 'Cancel' when you have finished searching.

15.3 **Submitting PA request through Web Server or Diskette**

Step 1   Select Communication>>Submission to display the Batch Submission
window, pictured below:

Step 2   Determine whether you want to submit by web server or diskette by selecting
the correct submission method from the Method drop down list.

Step 3   Determine which files you want to send from the Files to send list.

Choose 'Select All' to select all files to send, 'Deselect All' to undo any
selections you have made, or use the mouse (click once with the left mouse
button) to select one form at a time, or multiple form types for submission.

Step 4   Determine which files you want to receive from the 'Files to Receive' list.

Choose 'Select All' to select all files to receive, 'Deselect All' to undo any
selections you have made, or use the mouse (click once with the left mouse
button) to select one form at a time, or multiple form types for submission.

If you elect to submit by diskette, insert a diskette in your PC, press 'Submit',
then follow the instructions provided. *Do not select any files to receive
because your response will be mailed to you at a later date.*

Step 5   Press the 'Submit' to submit (and receive) the files.

Provider Electronic Solutions connects to the web server and sends the
response. The Communication Log (accessible by selecting
Communication>>View Communication Log) provides information regarding
the transaction.

Step 6   Follow Steps 1-5 to receive the response from the Web Server.

Refer to Chapter 13, Receiving a Response, for information about receiving responses,
resubmitting files, and reviewing submission reports.

NOTE:

The batch number received is confirmation that your Prior Authorization Request has been received. It does not denote approval or denial of the requested service. Once the Medicaid Agency reviews and approves or denies the request, an electronic response will be received with the "Approved" or "Denied" status. This information will also be mailed to the provider.

15.4 Reviewing a 278 Response

A response will create in less than an hour after your submission. To download the response, please refer to *Section 15.3* and follow steps 4 – 5. Once this step has been completed, you may view the 278 response by going to Communication >> View Batch Response.

The 278 Response fields are defined below:

Field #	Field	Guidelines
1	Prior Authorization Request Batch Response	This is the heading of your Prior Authorization response report.
2	Transaction Set Creation Date	This indicates the date in MM/DD/CCYY format of when the PA request was transmitted to Alabama Medicaid.
3	Transaction Set Creation Time:	This indicates the time when the PA request was transmitted to Alabama Medicaid in the military time format.
4	Requesting Provider ID	This indicates the requesting provider ID filed on Header 1 of the PA request.
5	Diagnosis Code 1 – 4	This indicates the diagnosis codes entered on Header 2 of the PA request.
6	Recipient ID	This indicates the recipient ID filed on the PA request.
7	Recipient Account #	This indicates the recipient account number indicated on the recipient list.
8	Yes/No Condition or Response	This field is only available when the recipient's ID contains a rejection. This is represented by a value of 'N'.
9	Reject Reason Code	This field is only available when a request is rejected. HIPAA reason codes are represented here. More detailed reasons are provided in the 'Request Status' message.
10	Follow-up Action Code	This field is only available when a request is rejected. This indicates the user to correct and resubmit the PA request. To do so, please refer to Section 15.1 on modifying a PA request.
11	Request Status	This indicates whether the PA request was "Accepted – Pending Further Review" or "Rejected". If the PA request was rejected, an additional message will follow indicating the rejected reason. Once the Medicaid Agency reviews and approves or denies the request, an electronic response will be received with the "Approved" or "Denied" status. This information will also be mailed to the provider.
12	Rendering Provider ID	This indicates rendering/billing provider ID entered in Header 3 of the PA request form.
13	Yes/No Condition or Response	This field is only available when the Rendering Provider ID contains a rejection. This is represented by a value of 'N'.

19	Request Category Code	This indicates the value chosen in the Request Category Code field on Service 1 of the PA request form.
20	PA Certification Type Code	This indicates the value chosen in the PA Certification Type Code field on Service 1 of the PA request form.
21	Service Type Code	This field is only available when a request is rejected. HIPAA reason codes are represented here. More detailed reasons are provided in the 'Request Status' message.
22	Place of Service	This indicates the value chosen in the Place of Service field on Service 1 of the PA request form.
23	Accident Date	This indicates the date entered in the Accident Date field on Header 2 of the PA request form.
24	Procedure Qualifier	This indicates the value chosen in the Procedure Qualifier field on Service 1 of the PA request form.
25	Procedure Code	This indicates the value entered in the Procedure Code field on Service 1 of the PA request form.

NOTE:

If a PA request was accepted, the request will be forwarded to Alabama Medicaid's PA department for further review. Once the PA clerk approves or denies a Prior Authorization request, a letter of notification will be mailed to the provider's office. An electronic denial or acceptance response will also be available to the provider. This response may be received by performing steps 4 – 5 in Section 15.3 periodically. Please be aware that this approval or denial process can take up to 7-10 business days when all required information is available for review. For a PA status, you may contact provider assistance at 800-688-7989 and provide them with the PA number located on your original 278 response.

16   Submitting 276 Claim Status Request

This chapter provides instructions for submitting electronic requests for 276 Claim Status. Please note this user manual does not discuss program requirements. Refer to the Alabama Medicaid Provider Manual for program-specific information.

Users access the 276 Claim Status form using one of the following methods:

- **CLM ?** Selecting the 276 Claim Status icon from the toolbar called 'Claim Status'

- Selecting Forms>>276 Claim Status Request

The electronic form displays with two tabs: Header 1 and Header 2.

16.1   Entering Requests Using the 276 Claim Status Request Form

Each tab on the 276 Claim Status Request form contains four main parts:

- Header line of fields that contain provider and recipient information.

- Updateable fields used to enter claims data.

- Buttons to the right of the form used to modify and save information entered in the updateable fields.

- List fields at the bottom of the form that enable users to view basic information about several claims. Users may highlight a row to modify, copy, or print a claim record. The list fields include Recipient ID, Last Name, First Name, Billed Amount, Last Submit Date, and Status.

Below is a description of the buttons that display on the claim form:

Button	Usage
Add	Pressing this button enables you to refresh the claim screen so you may add a new record. Please note that if you key over data that already displays on the claim form and press Save, you will overwrite the previous claim. Be sure to press Add before entering a new claim, or press Copy (see below) to build a new claim from an existing claim record. If you forget to do this and inadvertently key over a saved record, press Undo All (see below) to undo the changes.
Copy	Pressing this button enables you to build a new claim from an existing claim record. This feature is especially helpful if you routinely submit claims for the same procedure code for different recipients or for other instances where your claims may be similar to one another.
Delete	Pressing this button enables you to delete the claim currently displayed.
Undo All	Pressing this button enables you to undo changes you have made to the claim currently being displayed.
Save	Pressing this button enables you to save the claim you just added or modified. The saved claim displays on the list at the bottom of the form.
Find	Pressing this button enables you to search for a saved claim by status, last submit date, billed amount, first name, last name, or recipient ID.
Print	Pressing this button enables you to print the claim currently displayed.
Close	Pressing this button enables you to close the form.

To Add a New Claim

Step 1   Access the 276 Claim Status Request form. Key information into all required fields. (All fields are required unless indicated as optional.)

Field descriptions are provided below in the order they display on the form. You can enter information in any order, or may enter it in the order presented in the form, pressing the Tab key to move to the next field.

Step 2   Press the 'Save' button to save the record.

The system returns error messages if the claim contains errors. Scroll through the error messages and double-click on each error to access the field on the claim that contains the error.

Step 3   Correct the mistake(s) and press 'Save', or press 'Incomplete' to save the record with an incomplete status. You may also press 'Send' if you wish to send the Claim Status request Interactively.

Incomplete claims (status 'I') are not submitted with the batch submission.

Step 4   Press the 'Add' button to add another claim.

To Modify a Claim from the List

Scroll through the list of claims that display at the bottom of the form. Highlight the claim you wish to modify, and perform one of the following:

- Key over incorrect data on the claim form. *You cannot do this unless the status is 'R' (ready to submit) or 'I' (incomplete)*. Save the changes. Press 'Undo All' if you inadvertently overwrite a correct claim.

- Press 'Copy' to copy a claim that closely matches the information you need to enter (for instance, if you must enter claims for identical services, but different recipients) and modify the new record accordingly. Be sure to save the new record.

- Press 'Delete' to delete an unwanted record.

To Find a Record from the List

Press the 'Find' button to display the Find pop-up window. Options are:

- Find Where (select a field from the drop down list, if applicable)

- Find What (enter your search criteria here)

- Search (select up or down from the drop down list)

Once you have entered the search criteria, press the 'Find Next' button to search for the next record that matches the search criteria. Continue pressing 'Find Next' until you find the record you are searching for, or until the system returns a message indicating there are no records that match the search criteria.

Press 'Cancel' when you have finished searching.

16.2 Submitting Claims through Batch or Diskette

Step 1 Select Communication>>Submission to display the Batch Submission window, pictured below:

Step 2 Determine whether you want to submit by web server or diskette by selecting the correct submission method from the 'Method' drop down list.

Step 3 Determine which files you want to send from the 'Files to Send' list.

Choose 'Select All' to select all files to send, 'Deselect All' to undo any selections you have made, or use the mouse (click once with the left mouse button) to select one form at a time, or multiple form types for submission.

Step 4 Determine the files you want to receive from the 'Files to Receive' list.

Choose 'Select All' to select all files to receive, 'Deselect All' to undo any selections you have made, or use the mouse (click once with the left mouse button) to select one form at a time, or multiple form types for submission.

If you elect to submit by diskette, insert a diskette in your PC, press 'Submit', then follow the instructions provided. *Do not select any files to receive because your response will be mailed to you at a later date.*

Step 5 Press the 'Submit' button to submit (and receive) the files.

Provider Electronic Solutions connects to the web server and sends the response. The Verification Log (accessible by selecting Communication>>View Verification) and the Communication Log (accessible by selecting Communication>>View Communication Log) provide information regarding the transaction..

Step 6 Follow Steps 1-5 to receive the response from the Web Server.

Refer to Chapter 13, Receiving a Response, for information about receiving responses, resubmitting files, and reviewing submission reports.

NOTE:

When you submit batch transactions, you must wait a period of time (15 minutes to two hours, depending on the time of day you submit) to download responses to those transactions. Therefore, when you access the Submission window to send files and elect to receive files (steps 4-6 above), remember you are *receiving responses from your last transaction, not the current transmission.* If you have questions regarding the claim status response codes that accompany your response, refer to Appendix A, Rejection Codes, to get a listing of all Claim Status Codes and definitions.

A NOTE on the Claim Status Response: When checking Claim Status, Providers will now see '19000101' displayed in the paid date field if a claim(s) has been adjudicated but has not gone through a check-write cycle. Once the claim(s) process through the check-write cycle, it will display the appropriate check-write date.

16.3 Completing the 276 Claim Status Request Form

16.3.1 Header 1 Tab

Below is a sample electronic 276 Claim Status Request form displaying the Header 1 tab.

Complete the fields described below for the Header 1 tab:

Field	Guidelines
Provider ID	Choose a provider ID from your Provider list. If you have not added the required ID to your list, double-click on this field. A screen will appear for you to do so, please refer to Chapter 4 for additional instructions.
Provider ID Code Qualifier	Select the value that identifies the entity that assigned the ID.
Last/Org Name	This field will auto-write based on your choice in the Provider ID field.

Field	Guidelines
First Name	This field will auto-write based on your choice in the Provider ID field.
Recipient ID	Choose the Recipient's 13-digit Medicaid number from your recipient list. If you have not added the required ID to your list, double-click on this field. A screen will appear for you to do so, please refer to Chapter 4 for additional instructions.
Last Name	The last name entered in the recipient list will auto-write based upon which recipient ID was chosen. This field is optional.
First Name	The first name entered in the recipient list will auto-write based upon which recipient ID was chosen. This field is optional.
MI	If a middle initial entered in the recipient list will auto-write based upon which recipient ID was chosen. This field is optional.

16.3.2 Header 2 Tab

Below is a sample electronic 276 Claim Status Request form displaying the Header 2 tab.

Complete the fields described below for the Header 2 tab:

Field	Guidelines
From DOS	Enter the start date filed on the claim in MM/DD/CCYY format.
To DOS	Enter the stop date filed on the claim in MM/DD/CCYY format.
Type of Bill	Enter the code specifying the type of facility where the medical service was performed. This only applies to Institutional claim form types. This field is optional.
Billed Amount	Enter the amount you have billed Medicaid on the requested claim. *Do Not* enter the amount Medicaid is scheduled to pay.
Medical Record #	Enter the medical record # assigned by the provider's office. This field is optional.
ICN	Enter the Internal Control Number, or claims tracking Identification number. This field is optional.
Trace #	This field allows you to utilize the trace # that is also located on the 276 response to locate which request the response is referring to.

This page is intentionally left blank.

17 The Web Server

This chapter provides instructions on what steps to take when connecting to the web Server to update your passwords according to the logon ID's provided to you by the EMC Helpdesk.

Users access the Web Server by the following methods:

- Connecting through an ISP (Internet Service Provider)

- Connecting through the RAS (an option provided by the *Provider Electronic Solutions* software)

17.1 Updating and Maintaining your Web Server Password

Along with your *Provider Electronic Solutions* software, you should have received a cover sheet from the EMC Helpdesk issuing you your initial logon ID and password. Your password will need to be updated before a transmission can be attempted through the software. As a security measure, this password will need to be updated every 3060 days. Follow the steps below to complete this process according to the method you use to connect to the Internet.

17.1.1 Connecting through an ISP (Internet Service Provider)

This section will inform you how to logon to the Web Server through an ISP (Internet Service Provider), such as AOL, NetZero, etc.

Step 1   Open your ISP application and connect to the Internet accordingly

Step 2   Once properly logged onto the World Wide Web, type in the following URL:

https://almedicalprogram.alabama-medicaid.com

Step 3   Continue to **Step 3** in section 17.1.3 Updating your Password for further instructions.

17.1.2 Connecting through RAS

Connecting through RAS (Remote Access Server) is an option created by the *Provider Electronic Solutions* software. This section will inform you how to logon to the Web Server through RAS if you do not have an ISP.

This method requires you to have Internet Explorer version 5.5 or Netscape Navigator version 6.1 and a dial-up modem. If you do not have one or the other, you will need to contact your computer administrator to have it set up for you.

NOTE:

Before beginning this process, you should have followedfollow the instructions outlined in section 2.5.2 Web Tab. If you have not, please refer back to the instructions to set up your connection method through 'modem'. You will need to follow the instructions described in the 'Install RAS' and the 'Dialup Network' fields.

Step 1   Open your AL RAS connection. To do so, click on Start >> Settings >> Control Panel >> 'Network and Dial-Up Connections' and open the 'AL RAS' option.

Step 2   Once opened, a screen should appear as shown below: (If you have completed these steps you may continue to **Step 3** in section 17.1.3 Updating your Password for further instructions.)

NOTE:

Do not adjust the User Name or Password. The default information should remain keyed within these fields. If you have erased either, contact the EMC Helpdesk at 800-456-1242 for the correct password and/or User Name.

Step 3   Click on 'Properties' and click on the 'Networking' tab. A sample screen is pictured below:
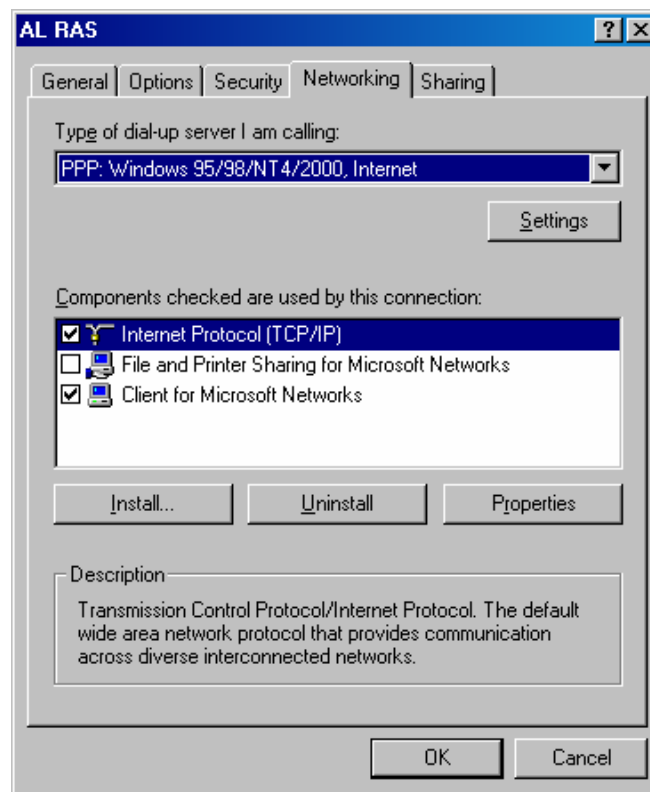

Step 4   Make sure the Internet Protocol (TCP/IP) option is highlighted and click on 'Properties'.

Step 5   Make sure the option for 'Use the following DNS server addresses' has been chosen. In the Preferred DNS server field type in 10 . 1 . 1 . 17   A sample screen is pictured below:
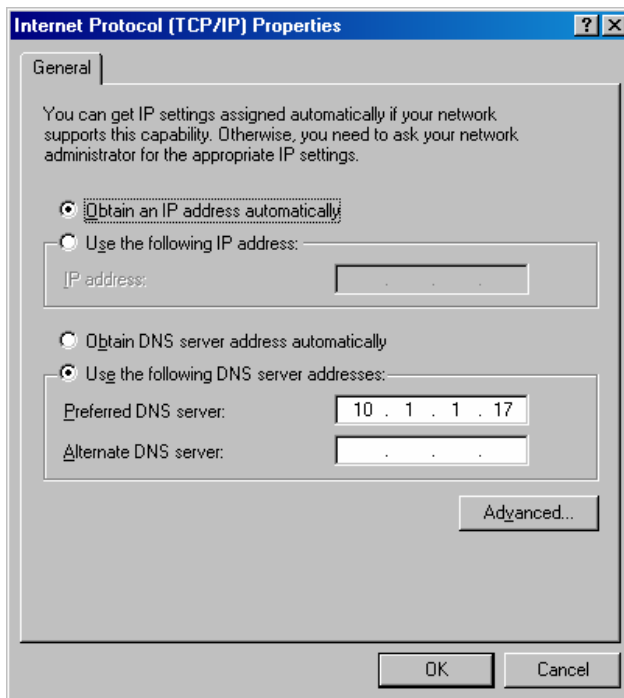

Step 6 Click on 'OK' to save your changes. Click on 'OK' to exit the Networking tab.

Step 7 Click on 'DIAL' to continue to connect through RAS. This will begin the dial-up process according to the number you entered in the web tab. Refer to section 2.5.2 Web Tab.

Step 8 Once connected you may open your Internet Explorer or Netscape navigator browser.

Step 9 The options for accessing your Internet Explorer browser are described below:

- Go to your Internet Explorer icon located on your desktop.

- Click on Start >> Programs >> Internet Explorer

The options for accessing your Netscape browser are described below:

- Go to your Netscape Navigator icon located on your desktop.

- Click on Start >> Programs >> Netscape Navigator

NOTE:

If you have a default home page within your IE or Netscape browser a message may appear that it was unable to connect. Ignore this message and in your address bar type in the following URL: https://almedicalprogram.alabama-medicaid.com

Step 10 Continue to **Step 3** in section 17.1.3 Updating your Password for further instructions.

17.1.3 Updating your Password

This section will inform you how to logon to the Web Server through an ISP (Internet Service Provider), such as AOL, NetZero, etc.

Step 1 Open your ISP and connect to the Internet accordingly.

Step 2 Once properly logged onto the world wide web type in the following address:

https://almedicalprogram.alabama-medicaid.com

Step 3 The main logon screen will look as follows:

18 Submitting Household Inquiry Request

This chapter provides instructions for submitting electronic requests for the household inquiry request. Please note this user manual does not discuss program requirements. Refer to the Alabama Medicaid Provider Manual for program-specific information.

Users access the Household Inquiry form using one of the following methods:

- Selecting the Household Inquiry icon from the toolbar called 'Household Inquiry'

- Selecting Forms>>Household Inquiry Request

The electronic form displays with one tab: Header.

18.1 Entering Requests Using the Household Inquiry Request Form

The Household Inquiry Request form contains four main parts:

- Fields that contain provider information.

- Updateable fields used to enter household inquiry request.

- Buttons to the right of the form used to modify and save information entered in the updateable fields.

- List fields at the bottom of the form that enable users to view basic information about several request. Users may highlight a row to modify, copy, or print an inquiry record. The list fields include Parent RID, Recipient DOB, Last Submit Date, and Status.

Below is a description of the buttons that display on the request form:

Button	Usage
Add	Pressing this button enables you to refresh the request screen so you may add a new record. Please note that if you key over data that already displays on the request form and press Save, you will overwrite the previous inquiry. Be sure to press Add before entering a new request, or press Copy (see below) to build a new request from an existing inquiry record. If you forget to do this and inadvertently key over a saved record, press Undo All (see below) to undo the changes.
Copy	Pressing this button enables you to build a new request from an existing request record. This feature is especially helpful if you routinely submit requests for the same parent RID for different dates of birth.
Delete	Pressing this button enables you to delete the request currently displayed.
Undo All	Pressing this button enables you to undo changes you have made to the request currently being displayed.
Save	Pressing this button enables you to save the inquiry you just added or modified. The saved request displays on the list at the bottom of the form.
Send	Pressing this button enables you to send via interactive submission the record currently being displayed. You must save the record before sending it.
Find	Pressing this button enables you to search for a saved request by status, last submit date, patient DOB and Parent RID.
Print	Pressing this button enables you to print the request currently displayed.
Close	Pressing this button enables you to close the form.

To Add and Send a New Request

Step 1   Access the Household Inquiry Request form. Key information into all required fields. (All fields are required unless indicated as optional.)

Field descriptions are provided below in the order they display on the form. You can enter information in any order, or may enter it in the order presented in the form, pressing the Tab key to move to the next field.

Step 2   Press the 'Save' button to save the record.

The system returns error messages if the request contains errors. Scroll through the error messages and double-click on each error to access the field on the request that contains the error.

Step 3   Correct the mistake(s) and press 'Save'. You may also press 'Send' if you wish to send the Household Inquiry request Interactively.

Step 4   Press the 'Add' button to add another request.

To Modify a Request from the List

Scroll through the list of requests that display at the bottom of the form. Highlight the request you wish to modify, and perform one of the following:

- Key over incorrect data on the request form. *You cannot do this unless the status is 'R' (ready to submit) or 'I' (incomplete)*. Save the changes. Press 'Undo All' if you inadvertently overwrite a correct request.

- Press 'Copy' to copy a request that closely matches the information you need to enter (for instance, if you must enter requests for parent RID's, but different date of births) and modify the new record accordingly. Be sure to save the new record.

- Press 'Delete' to delete an unwanted record.

To Find a Record from the List

Press the 'Find' button to display the Find pop-up window. Options are:

- Find Where (select a field from the drop down list, if applicable)

- Find What (enter your search criteria here)

- Search (select up or down from the drop down list)

Once you have entered the search criteria, press the 'Find Next' button to search for the next record that matches the search criteria. Continue pressing 'Find Next' until you find the record you are searching for, or until the system returns a message indicating there are no records that match the search criteria.

Press 'Cancel' when you have finished searching.

18.2 Completing the Household Inquiry Request Form

18.2.1 Header 1 Tab

Below is a sample electronic Household Inquiry Request form displaying the Header tab.
